FAQ

Does this require an investment?

Yes, meaning the more invest = the more you profit. You can't expect to make money without spending money. You can invest as little or as much as you'd like.

Can I possibly lose my investment?

No, the methods are guaranteed earnings as stated in my video.

Do any of the methods inside include CPA/PPD?

No, this does not include any of those methods.

How much time do the methods require?

Depending on how fast you work, the methods could take as little as 30 minutes to set up and execute. This means you can repeat them multiple times as day if you wanted, it is entirely up to you how much work you put in.

Do these work worldwide?

Yes, you can execute these methods no matter where you are from.

What does your refund guarantee mean?

I'm providing refunds to anyone who is not able to earn using these methods. Given that the methods are all guaranteed profit, it's pretty much impossible not to be able to earn. I will NOT give refunds to people who simply don't want to use the method or claim that they already knew about the methods beforehand. I will work with you to find a suitable alternative but simply claiming that you already knew about the methods will not work.

month or two before you make that every day. My average income last month was 600\$ a day, EVERYDAY for the whole month. But in if you start to stunt that kind of money you will need have taxes to deal with, just keep that in mind. But for the amount of income you can make it doesn't really matter. Here is a screen shot for a little proof FWIW. Great guide and I have been doing it for about 6 months now. Here is a picture:

Do not waste your time with LQ methods from others that will just make you earn 50-100\$ monthly, if you really want to make money like 100-500\$ daily, then invest your money and time in this real shit!

Unfortunately I can not post my huge earnings in this post, because I am new on HF. BUT if you buy this method and you are not making min. 2000\$ monthly, then will I come to your home and give you the money that you invested here, because there is no chance to lose money with it!

All in all, I wish everyone here a nice day and I hope you will make like me 3000\$ monthly just because Riyu was born! Thanks!

The guide is pretty easy to understand and with the support of Riyu you can set it up with no more than 1-3 hours depending if you want to take your time or rush the setup. This method will actually double your investment (Do keep in mind you have to invest for yourself to make money.. LOGIC." The more you can spend the easier you double your money and the other way around.

Basically if you need some quick cash or even more. With this method you can easily get back the money you spent on the e-book in the first day.

(Jul 20, 2017 05:43 PM)soueu Wrote: [\[CITE\]](#) I lost track of all the ebooks I bought here on HF over the years... NONE of them really worked! Either because the referred methods included were too much effort/trouble to little or no profit at all, or simply because they were outdated/patched/fixed. And I gotta be honest here guys, I didn't have big hopes for this one either... Still, given the reviews on this thread I decided to pull the trigger, after all, it isn't that pricey atm, is it?

I still haven't put in practice the content explained on the ebook yet, but after taking a deep look at it, I don't see a single reason why this wouldn't work. In fact, I would say that the "\$500+ PER DAY" wouldn't be unrealistic as one might think. Although it entirely depends on how much you decide to invest.

Anyway, I'll update my review once I give it a proper try and I'll surely let you guys know how it goes.

For now I'll leave it at this: His customer support alone is top notch and in my opinion that plays a big role on here.

PS: I'm not from US, so I'll also give it a review on that. (Not that I think it has a big influence on this method's effectiveness!)

Don't be an idiot and you won't lose your money. If you are dumb enough to lose your money doing this method you'll probably lose your money somewhere else anyways.

My fav part of all this is the community chat for the method. We help each other out to complete the method. You'll run into weird problems just about every time but our group helps each other all out.

(Jul 23, 2017 12:50 PM)TheChi?f Wrote: [\[CITE\]](#) Originality: 8/10

I've known this method since over a year but I am quite surprised to see that a lot of users all over the internet aren't familiar with this. It may be the greyhat nature but regardless, it was known to me so I'll give this an 8/10.

Grammar: 7/10

The eBook has not be explained with proper distinction in a lot of places. I did see a few of the clients in the support chat that had some questions regarding it but they were answered quite promptly so thats some relief.

Ease of Use: 7.5/10

All the expects of the method haven't been explained in as much detail as I'd have expected but 'Riyu does provide support in the group chat, and other customers in the chat also tend to help each other complete the method. Its greyhat and the requirements have been stated in the OP itself, but it also does require the user to not be a dumbass.

Overall: 7.5/10

Its fine, considering the amount of people who don't seem to know this method. I'd like to point out that Riyu does need to fix a few parts in the eBook and also explain the steps in more detail as it may be difficult for those who are not familiar with the method to understand it. Also, Riyu has listed quite a few resources for ease of access of the consumers. Considering the price its being sold at and a few of the last copies left, I'd consider it a steal as the method has the potential to make money in the hundreds per day if done right. But don't buy if you expect the computer to do the work for you while you sit in your bed jerking off to midget porn.

EDIT: Quite surprisingly, this is one of the very few eBooks that I found on HF that actually do work AS ADVERTISED.

My review:

This method is easy and fast to do. You'll get all the money you want if you do it the right way. However, you need to have some stuff but you can easily get it if you have some knowledge. So to summarise, you're able to get whatever you want if you have some knowledge, the price is more than fair and the investment depends on the day, but usually is as OP states. If you're not from the US, you can easily work out the method by getting some residential proxies or a hq rdp.

Thought I would do everyone a favor and leave a detailed review about my purchase. Decided to purchase this due to Riyu's reputation of selling & to be honest I must say that I'm seriously impressed. This is one of the first methods on here that I have actually earned off, the setup is quick and efficient and the earnings are astounding. It really looks like a lot of research and study went into this method because they are definitely not random. I honestly would be just as happy if I purchased this because of the quality and how much you can earn with this. If I had to explain the method with two words I would say unique & profitable.

No, it has nothing to do with dropshipping.

Capt. Murphy - July 13, 2017, 3:28 pm

Is there ANY way to do this without PayPal, like using a different payment processor? I used my PayPal in the past to get out of a stick situation and I no longer have (or can get without paying \$350) a PayPal account. I am VERY interested in this but cannot fulfil the PayPal requirement.

Perhaps I can buy a PayPal with history on it from the deepweb and use that, cashing out into btcs?

Any suggestions from anyone?

This method looks very promising, but I'm curious. There is absolutely NO WAY that this can be saturated? What are the chances of me losing my investment? Also , I know nothing at all about bitcoin, will you be able to help me?

Hello everyone who's about to buy this e-book or hesitating wheter you should buy or not buy it. This is a detailed review (not in-depth ofcourse). I've bought this E-book with the knowing that I would get a PDF of about 10+ pages with requirements. Luckily it was way less than that :). The guide is pretty easy to understand and with the support of Riyu you can set it up with no more than 1-3 hours depending if you want to take your time or rush the setup. This method will actually double your investment (Do keep in mind you have to invest for yourself to make money.. LOGIC." The more you can spend the easier you double your money and the other way around.

Basically if you need some quick cash or even more. With this method you can easily get back the money you spent on the e-book in the first day.

BIG VOUCH for Riyu and his amazing support.

I lost track of all the ebooks I bought here on HF over the years... NONE of them really worked! Either because the referred methods included were too much effort/trouble to little or no profit at all, or simply because they were outdated/patched/fixed.

And I gotta be honest here guys, I didn't have big hopes for this one either... Still, given the reviews on this thread I decided to pull the trigger, after all, it isn't that pricey atm, is it?

I still haven't put in pratice the content explained on the ebook yet, but after taking a deep look a it, I don't see a single reason why this wouldn't work. In fact, I would say that the "\$500+ PER DAY" wouldn't be unrealistic as one might think. Although it entirely depends on how much you decide to invest.

Anyway, I'll update my review once I give it a proper try and I'll surely let you guys know how it goes.

For now I'll leave it at this: His customer support alone is top notch and in my opinion that plays a big role on here.

PS: I'm not from US, so I'll also give it a review on that. (Not that I think it has a big influence on this method's effectiveness!)

In fact, I would say that the "\$500+ PER DAY" wouldn't be unrealistic as one might think. Although it entirely depends on how much you decide to invest.

Anyway, I'll update my review once I give it a proper try and I'll surely let you guys know how it goes.

For now I'll leave it at this: His customer support alone is top notch and in my opinion that plays a big role on here.

PS: I'm not from US, so I'll also give it a review on that. (Not that I think it has a big influence on this method's effectiveness!)Thank you for sharing your first thoughts on the method. I can't wait to see you earn some money tomorrow.

This shit is the first thing I need working on hackforums ever! Massive vouch!!

ichivictus - July 22, 2017, 3:32 pm

Very legit. Turned .3btc into 1600USD. Basically almost doubled my investment.

The method is simple. I can tell it can't be too saturated except for the part where you pay your investment.

Don't be an idiot and you won't lose your money. If you are dumb enough to lose your money doing this method you'll probably lose your money somewhere else anyways.

My fav part of all this is the community chat for the method. We help each other out to complete the method. You'll run into weird problems just about every time but our group helps each other all out.

TheChi?f - July 23, 2017, 12:50 pm

Originality: 8/10

I've known this method since over a year but I am quite surprised to see that a lot of users all over the internet aren't familiar with this. It may be the greyhat nature but regardless, it was known to me so I'll give this an 8/10.

Grammar: 7/10

The eBook has not be explained with proper distinction in a lot of places. I did see a few of the

clients in the support chat that had some questions regarding it but they were answered quite promptly so that's some relief.

Ease of Use: 7.5/10

All the expects of the method haven't been explained in as much detail as I'd have expected but 'Riyu does provide support in the group chat, and other customers in the chat also tend to help each other complete the method. Its greyhat and the requirements have been stated in the OP itself, but it also does require the user to not be a dumbass.

Overall: 7.5/10

Its fine, considering the amount of people who don't seem to know this method. I'd like to point out that Riyu does need to fix a few parts in the eBook and also explain the steps in more detail as it may be difficult for those who are not familiar with the method to understand it. Also, Riyu has listed quite a few resources for ease of access of the consumers. Considering the price its being sold at and a few of the last copies left, I'd consider it a steal as the method has the potential to make money in the hundreds per day if done right. But don't buy if you expect the computer to do the work for you while you sit in your bed jerking off to midget porn.

EDIT: Quite surprisingly, this is one of the very few eBooks that I found on HF that actually do work AS ADVERTISED.

Mintpez - July 23, 2017, 2:40 pm

I try to write somewhat decent/detailed reviews, however, I don't think I need to do that here. Everyone who has been able to use this method can see from all the reviews that this actually works. It's going to be around for a while, and it can't be saturated. The Discord support is amazing, and that's all I think I really need to say.

I just finished up completing this method for the first time, and while it was a tad bit confusing for me (I'm horrible at BTC stuff), I received all the information I was looking for.

Guys ive bought so many shitey ebooks, this one works. You need money to invest and for it to be easy you need around \$250 to incest in my opinion, you will make just under that in profit, then you repeat. Ive been told to be safe only do it 2 or 3 times per week, which is still a nice income. It took me a while getting setup but riyu and the rest of the buyers on discord chat are more than helpful, without a doubt not a waste of money +rep mate

How many hours would you have to invest to make \$500 a day? Or does this have to do with how much money you ultimately invest into whatever this is?

If you have the funds in bitcoin, it shouldn't take more than 2-3 hours max.

Profit also has to do with how much you invest.

At first it looked quite complicated, but once you follow your step-by-step tutorial it actually is very easy.

The discord community is active & helpful.

For everyone interested:

Depending on the time & money you invest, the more you will make.

You probably need 20-30 minutes to get things set. From that point, you can expect to start doubling your money pretty easy.

I'm interested in this product, but I can invest only like 30\$ max.
Also, does it involve selling bitcoin on eBay and then scam?

No scamming is involved.

I wouldn't purchase this method if you only have \$30 to invest. I will be pushing out an update soon with a second method that will be available for anyone who doesn't have money to invest.

prnt.sc/g1l83j My days earning's after using this method, huge vouch for Riyu, there's no other ebook on this forum that'll make you this ROI in such a timeframe I believe, there's work involved of course, takes some time to set everything up also you will need to invest atleast 200dollars but you're gonna make that back your first day also potentially double or triple it fairly easily with a bit of figuring out, will be back next week to update weeks earnings, also best Support team on discord

You should easily be able to earn the price you paid for this guide. It's not one of our best methods but it does work well.

Zero investment methods can help you gain enough funds to do the method that requires an investment.

I am confused, some people say it requires 0.1 btc investment, then one says "Okay, I just executed the method. Besides the initial investment for the method, I only had to pay \$2 for a VPN. It was really easy to do and I will wait a couple of days so I can withdraw my funds and I will do it again."

I've had a day or so to look through everything and I can just say 100% verify. Haven't done it yet, still learning everything but once you understand the basic concept, it's simple, and it works. I'm a total noob but the community is helping me out, anyone who's technical enough to be on here and who can follow simple instructions could pull this off.

arauld - August 12, 2017, 4:08 pm

I purchased this ebook over a week ago and I have to say this is definitely one of the only books I've purchased that I am completely satisfied with. I would say you will make about \$400 the first week if you have the investment requirement. Making about \$400 the first week if you have the investment requirement is believable. You could easily earn \$200-\$400 a day doing 20-40 minutes of work with

enough understanding, tools, and investment. There is little risk of losing your investment due to the nature of the transactions involved. Riyu and the staff of Income Layer have the main method down to a science, with graphics and other resources to help you. This can be done anywhere, as far as I know, by anyone.

In my opinion there are only two downsides to this method:

1. The initial investment is higher than that of most other methods
2. You are at the mercy of the forces of supply and demand for one particular step, which limits how fast you can earn

Overall, I would recommend buying this book. Even if you decide not to commit to these methods, they can open new doors to other opportunities you might not have considered.

I had like 2 days to go though this e-book and it has great possibilities, the main method is really clear and 100% working + profitable. You just have to sit, read and learn the process before taking action. Which i'm currently doing because i'm doing something else right now, but once i'm ready it will be done for 1hour of my time. It's pretty quick and straight-forward when you understand the concept. And you will, we have a great community on Discord and great support.

There's no set amount, but \$200-\$300 works really well. As with many things, the more you're willing to put in, the more you get out, both in time and \$\$.

It is worth it though.

Here's my review of this method:

The first method seems decent but I haven't tried it yet due to having success with the other methods. Setup is simple and the profit should come within 2-3 days of executing.

The second method is the most popular of them all. Almost everyone has been doing this method, it's a bit risky but you can easily make \$1,000 a week if you're smart with it. I've done it a couple times and I've had success each time. The setup isn't the easiest thing but it's not the hardest thing either.

The third method is the one I'm currently using. It requires zero investment and you can get paid out with whatever payment method you desire. Although payment methods that aren't widely use

may be a bit harder you can still make it work. I've pretty much figured out a way to make it autopilot which is awesome. I make around \$50+ a day

Overall, this is the best method that I've purchased.

BIG VOUCH FOR RIYU!

I already bought an eBook to earn money, but this method from Riyu and his support is so HQ. Ladies and Gentlemen, if you really want to earn money then buy it! Do not waste your time with LQ methods from others that will just make you earn 50-100\$ monthly, if you really want to make money like 100-500\$ daily, then invest your money and time in this real shit!

Unfortunately I can not post my huge earnings in this post, because I am new on HF. BUT if you buy this method and you are not making min. 2000\$ monthly, then will I come to your home and give you the money that you invested here, because there is no chance to lose money with it!

All in all, I wish everyone here a nice day and I hope you will make like me 3000\$ monthly just because Riyu was born! Thanks!

Yours sincerely,

Contract Killer

Vouch for this method. You will at the very least make your money back if you follow any of the methods he provides.

The discord itself is also very nice and many of them willing to help anyone who's stuck.

1. Scamming people? No.

2. There's a method included about that but it's not the most popular method. I only included it to earn some extra cash.

3. No.

They're methods inside that require zero investments or a low amount of it.

Some methods do require a semi-high investment though but you can use the other methods inside to then try this higher investment method.

The amount varies from each method. The methods work worldwide. Some methods are instant while others may take a couple days.

(We have a method that requires no investment as well)

Some methods don't require a PayPal account. You can make your money back the same day as well..

Well I didn't make my money back, nor did I get support.

PS- Id be more then willing to talk about this or get some actual support with this method.

Ill post up a review. It takes some funds to start, so don't think you are going to start with 0\$. You need money to make money. I do not see this method fading away for a while. You DO NEED some computer experience to navigate and set up stuff. There are also a couple methods so you can pick and choose. I chose to wait and set up stuff on a revolving schedule to make things easier for myself. I should be able to do this about 8 times a month for me personally. First sale was about 480\$ (you could do more but I have a full time real paying job lol)

That's brilliant e-book and really working methods! I've spent more then 3 years online and havent seen such a workin among scam and bullshit outdated e-books. You can really make money within a minutes and if you spend some time and will use your brain you can make 1000 \$ with no problem! The most quality methods and support I have ever seen online.

Ladies and Gentlemen, if you really want to earn money then buy it! Do not waste your time with LQ methods from others that will just make you earn 50-100\$ monthly, if you really want to make money like 100-500\$ daily, then invest your money and time in this real shit!

Unfortunately I can not post my huge earnings in this post, because I am new on HF. BUT if you buy this method and you are not making min. 2000\$ monthly, then will I come to your home and give you the money that you invested here, because there is no chance to lose money with it!

The guide is pretty easy to understand and with the support of Riyu you can set it up with no more than 1-3 hours depending if you want to take your time or rush the setup. This method will actually double your investment (Do keep in mind you have to invest for yourself to make money.. LOGIC." Basically if you need some quick cash or even more. With this method you can easily get back the money you spent on the e-book in the first day.

Either because the referred methods included were too much effort/trouble to little or no profit at all, or simply because they were outdated/patched/fixed.

And I gotta be honest here guys, I didn't have big hopes for this one either... Still, given the reviews on this thread I decided to pull the trigger, after all, it isn't that pricey atm, is it?

I still haven't put in pratice the content explained on the ebook yet, but after taking a deep look a it, I don't see a single reason why this wouldn't work. In fact, I would say that the "\$500+ PER DAY" wouldn't be unrealistic as one might think. Although it entirely depends on how much you decide to invest.

Anyway, I'll update my review once I give it a proper try and I'll surely let you guys know how it goes.

For now I'll leave it at this: His customer support alone is top notch and in my opinion that plays a big role on here.

PS: I'm not from US, so I'll also give it a review on that. (Not that I think it has a big influence on this method's effectiveness!)

(Jul 23, 2017 12:50 PM)TheChi?f Wrote: [\[CITE\]](#) Originality: 8/10

I've known this method since over a year but I am quite surprised to see that a lot of users all over the internet aren't familiar with this. It may be the greyhat nature but regardless, it was known to me so I'll give this an 8/10.

Grammar: 7/10

The eBook has not be explained with proper distinction in a lot of places. I did see a few of the clients in the support chat that had some questions regarding it but they were answered quite promptly so thats some relief.

Ease of Use: 7.5/10

All the expects of the method haven't been explained in as much detail as I'd have expected but 'Riyu does provide support in the group chat, and other customers in the chat also tend to help each other complete the method. Its greyhat and the requirements have been stated in the OP itself, but it also does require the user to not be a dumbass.

Overall: 7.5/10

Its fine, considering the amount of people who don't seem to know this method. I'd like to point out that Riyu does need to fix a few parts in the eBook and also explain the steps in more detail as it may be difficult for those who are not familiar with the method to understand it. Also, Riyu has listed quite a few resources for ease of access of the consumers. Considering the price its being sold at and a few of the last copies left, I'd consider it a steal as the method has the potential to make money in the hundreds per day if done right. But don't buy if you expect the computer to do the work for you while you sit in your bed jerking off to midget porn.

EDIT: Quite surprisingly, this is one of the very few eBooks that I found on HF that actually do work AS ADVERTISED.

Personal Review after I bought the guide couple of days ago.

Method 1 and 3 are not methods from my personal perspective. I don't feel that you can learn something from them.

Method 2 though is something really unique if you have enough time and money to invest on it. You need both of them.

In any case Riyu was kind enough explaining to me the situation and the case I could not get a refund.

Overall I was a bit unsatisfied with the product as I was expecting much more, but if you have time and money to invest in method 2 you can really earn a lot of bucks.

The amount varies but it's one of the higher investment methods. It takes around 1-2 hours to do (setup wise)

Once you're all set up, it takes around 10 minutes to execute.

I recently bought this from Riyu and read it carefully. I loved the ebay method, very well explained and it has already made me triple my investment of 200\$ after just 2 "rounds" of doing it. I find that method the most profitable although the other methods can make you LOTS if you put a bit of your time into them. A huuuuuuuuuuuge vouch for Riyu.

Honest review. overal the methods are good and will earn you money , BUT only if you meet a certain critera which isnt stated in the advert. you will need funds to invest. you will need ebay/ paypal for one or two of the methods. if you aint got nothing to invest. this guide is pointless. the how to earn money with no investment part of this guide. is found all over this forum. ie ewhoring and it isnt even detailed. so unless you have money to invest. dont buy this guide because you wont be refunded regardless of the package you buy.

Lets do a little review for those interested. Yes you need money to make money don't expect to start with nothing and become rich. Also you have to start slow to work your way up the income layers. Can you make 500\$ a day, YES. But you will need a month or two before you make that every day. My average income last month was 600\$ a day, EVERYDAY for the whole month. But in if you start to stunt that kind of money you will need have taxes to deal with, just keep that in mind. But for the amount of income you can make it doesn't really matter. Here is a screen shot for a little proof FWIW. Great guide and I have been doing it for about 6 months now. Here is a picture:

Yes. Some methods require PayPal but you can modify it to cash out without using GayPal.
