Have him send me a private message. This is a pretty simple \$50 job. I am heading on vacation tomorrow and want this done and ready for me upon my arrival.

\$50 for a setup? You are going to get next to nothing for that amount.

Its cookie cutter as shit dude and it doesn't take more than a couple hours for someone with experience to set up a shop.

You might want to be a bit more specific.
Also, whatever the task, \$50 is too low.

Send me a private message and we can discuss this further.

EnigmaCenter - July 5, 2017, 5:15 pm

I can do this for \$50. I don't know why people are saying its too low. You are just paying to have the shop set up. If you have any experience with mangento etc this should be easy to set up but yeah hit me a pm and I can set it up for you if you have not had it done yet.

B FOR BADASS - July 5, 2017, 7:32 pm

Send me a private message and we can discuss this further. I can also set up opencart with nice themes if you want that. I personally recommend that though. Thanks

What do you need done? Almost everything is available to you with ease unless you're looking for complex theme modifications...

- 1) Select a free theme, apply it to your store
- 2) Change headers, text images etc and add your logos inside the WUI on the theme
- 3) Add your products, collections inside Shopify directly

What exactly do you need done?

Mizzy - July 7, 2017, 2:46 pm
