I'm sure he won't be able to sleep at night knowing you won't purchase any of his products.

OP, as said before, blur out at least his IP.

It's against the rules to post his private information, but since this is CE I'm sure you can leave out e-mail

I am sure he will be devastated because you will never going to purchase from him.

Now fuck off..

Good job Horus.

I would have make fun of him, make him look like a shit that he is.

pure scammer

**lWrath** - July 6, 2017, 5:22 am

The way I see it is like this.

User paid for and used for a month, no refund.

User paid for and has a right to speak his mind on your product, just not on your sales thread.

All the other stuff.... Block buttons.

**?ch?m?l??** - July 6, 2017, 5:32 am

I'm really done with these people trying to shit on other people's products.I've dealt with Horus and he's a cool guy,there's no reason for him to scam a customer. Like seriously guys what does he have to gain scamming someone off \$30. Forget the dude Horus, keep up the good work on your product.
