I'm guessing we're going to have the same stats right? Time to boot up that crispy jtag.

I'll be making a new account just to grind up to the 50s again, make it a little interesting.

I do agree though, I wish it was a total new game server, no one has 50s, no one has EXP, race to generals and 50s would be nuts.

So...
What's the point when you can just play MCC?
I'm not even excited for this tbh. I don't see it changing anything.

is the game going to be at 60 frames?

that reach compatiability is straight ass @ 30 frames
