Thread: [errors + captchas = throw my phone away](#)

Mr. Reviewer - July 6, 2017, 4:54 pm

50% of the time I am surfing on HF from my phone and lately I am experiencing a ton of random errors something with "Web server is returning unknown error" and a Budapest IP + I have to complete captchas each 2 links I enter, it's this deliberately implemented?

Meow - July 6, 2017, 4:55 pm

I think HF/Omni is not responsible for that, could be Cloudflare (if Omni is still on it). Not sure tho, just my opinion.
