Anyone seen it? This anime has the best OST I've ever heard. Same composer and producer as Attack on Titan.

The first season isn't as good as the second, it's more about building the characters. Great anime imo

I personally liked S2 better due to more progression in the story, but you are correct with the composer Hiroyuki Sawano is pretty amazing.

Watched the first season and it was alright. Dunno why i never got onto the second season, but from what i'm seeing other people say the 2nd season is better than the first. Perhaps i'll pick it up again? The soundtrack is dope tho i agree.

Tbh I enjoyed the first and second season a lot but it sucks that they went anime only route towards the end. I might read the manga but I honestly have too many to keep up with.

Where did they differ between the manga? I forgot a little of what happened in season 2 compared to the manga.

It was a good watch tho, would not mind watching something similar again, although was not really a fan of the animation used

Owari No Seraph was definitely one of those shows that spiked every so often for me. It had a really interesting start, slow buildup, awesome climactic seasonal scene, and then it slowed down again.

It spiked ; | |

Unpopular opinion but I liked season 1 more.. Liked the shroud of mystery behind everything. Overall a good anime tho
