Are you actually implementing the shopify facebook ads method on HackForums ?????

Guys any product you see look it up on aliexpress and you will find it.

EDIT: the point is it will cost you less than the shipping itself.

LOL It's just a website that is giving it away for free. I'm just posting to see who wants the link. It's not even that big of a deal as you guys are making it.

Those items aren't free if the seller requires you to pay shipping.
