Thread: [Office expl \(.exe to .doc \) all versions . new UD 2017](#)

Nsecurity - July 9, 2017, 9:41 am

hello , i can see ppl here are posting my codes without even give credits
so i thought yo share my work here right away

since i just done from my new one that completely FUD and its very fresh i thought it will be ok to
share this one

its undetectable from all majors AV's its not macro expl

for the ppl who looking to learn how to make the python expls reFUD i would learn them that by
lessons over TV not expensive price

also if anyone want unquie and private FUD office/adobe expls they can mail me / pm me / jabber :
Nsecurity@jabber.ru

usage : exploit.py malware.exe decoy_Document.doc output.doc

i cant post links u can visit nulled . to or pm me

This guy is full off shit....if you deal with him you will get scammed. at the very least your time will be
wasted, and life energy sucked away from you.

antex - July 21, 2017, 8:15 pm

I am interested. PM me plz

KyrielIrving - July 21, 2017, 9:43 pm

wow nice mah man appreciate for the contribution

like this posts is the most thing making me do not like to be here , you do not know who i am so
stop posting flame things like that , post proof other wise keep quite

as for me , i am in the scene from 2001 , was in the admin panel at unkn0wn.eu , old HH , ryan1918
, was in chasenet , swerat , ssgroup , i am sure u never heard from anyone of them coz those is
really old school

sorry for late replay but i am not so around here anyone is interesting in expls or any kind of thing
he can add me

Nsecurity@jabber.ru

regards

this is just a flame post that trying to make ppl afraid s 90% from expls seller is just skiddies / scammer and i undersand that but

-one my work on ie CVE/2017-0037 : cxsecurity.com/issue/WLB-2017070156

also alots of public release for expls/ie on nulled , some videos that really reliable on youtube
all expls coded from scratch complely handmade
can provide TV with process monitor as aircommodore post proof or gtfo

btw i am not too much on skype i prefer jabber but i will let skype open from now on
