Nice. I still have mine but it's dangerous to use them in public now the way the world is. Cops trigger happy, it's nuts.

Is it spring loaded or CO2? Where did you buy it from because it looks nice.

If you're dutch then your age doesnt matter, since a real gun stays illegal

not easy, and open carry is still illegal. You can like only use it at the shooting range i think. or outback if you own like a large piece of land
