My experience was great. I needed a fast dedicated server due to running multiple seo software campaigns for my clients. The speed is awesome along with the actual server performance. The price is also great. Thanks guys

Guys sitehoster simply the best.
i have tried them they are real as they said.

G-protect - August 13, 2017, 2:39 am

please guys don't be a fool by buying something on this site.

I bought web hosting from this guy and after two days this guy off the server.

later it come On again, and i find out that the smtp on the host is not working.

and the next day this guy change my password to whm.

it's when i no this just a scam.
