Welp, i finished watching season 2 and i assumed that there is not going to be a season 3. I was wondering, from where should i start reading the manga?

there are nights when i cry cause the realization of not getting a S 3 hits me in soul and mighty grip of sad memories rip it apart.

memes apart, Saw it first , liked it second , loved it 3rd .

Read the light novels, there is plenty of continuation for S&W. Would give an arm and a leg for season 3 though.

it's always the same with animes ? - they only produce them to promote their mangas. its much cheaper to produce mangas and it lets them earn far more money
