Thread: [\[PayPal\] Transfer balance to bank> Contact PayPal > Faster?](#)

Sharjah - July 10, 2017, 9:39 am

Is it possible to transfer my PP balance to my bank, then contact paypal so they can verify it, and then they send it over to my bank?

Reason I ask is because (read bolded):

Estimated arrival: 1 business day

Transfers made after 7:00 PM ET or on weekends or holidays take longer. All transfers are subject to review and could be delayed or stopped if we identify an issue.

So, if they are subject to review, does that mean the process can be sped up if I were to contact them over the phone?

You don't need to . It always gets Completed Automatic , i don't think calling them will make it any faster .

7225799654257933663632 withdraws a day manually? Hell no.

buur - July 10, 2017, 11:44 am

Past few weeks my PayPal > bank balance as taken around 3/4 days on the dot.
Where as usually it would take a hour max.
Shits ridiculous

It never done manually . They dont have such amount staff lol to do all bank withdraw manually all over the world . Also i noticed my regular withdrawals completed automatically around 6 - 8 AM every morning for my region .

Ratt - July 11, 2017, 6:50 am

Did 2 withdraws last night, hope it comes in today.

Jopemeister - July 11, 2017, 6:54 am

my withdraws almost always come within 1 business day. so just wait

The Sanity - July 11, 2017, 9:41 am

Only large withdrawals are manual, everything else is automatic. Unless you're withdrawing amounts over 10,000 (I don't know the exact number but it's probably over 10,000 or 15,000 or

something like that), then they will be manual. There's not that many people withdrawing over 10,000 every day, it can easily be manually reviewed to make sure the accounts aren't doing anything suspicious like suddenly receiving multiple \$1000 payments from various credit cards then withdrawing all that money.

Very true indeed , also those who has 10000\$+ balance gets their account reviewed time to time for sure by PayPal .
