Thread: [I know space is *NOT fake and nasa really means not a space agency, how do you feel?](#)

Honey Cocaine - July 10, 2017, 10:57 am

I could sit here and provide sources of my opinions but I just wanna have a conversation.

I know nasa is fake and that we haven't been to space before. I know scientists have proven that the earth doesn't spin I'm not disputing the fact that the earth is flat. I believe it is round.

Let's go back and review every notable achievements nasa has actually achieved besides 'photos' of space, what do we have? Literally nothing but the supposed moon landing. Which oddly seems fake imo.. I mean if you follow the tracks, Armstrong was asked to swear on a bible he went and he punched the guy in the face.. why? If I went I'd be bragging for days.....

Anyway,

How do you feel about nasa and space. Do you agree with me? The points I made? Let me know..

Cognizant - July 10, 2017, 10:58 am

Space is fake?

You can't deny what is right in front of your face, just walk outside and look up.

Lor?d - July 10, 2017, 10:59 am

Yeah man all those shuttle launches are 100% fake!

They landed like 2 miles away, totally didn't make it to space.

Smexy - July 10, 2017, 10:59 am

It perhaps is a illusion yes.

But what can 1 person do to a illusion believed by too many?

Its like you should check yourself if space is existing..

Which oddly seems fake imo.. I mean if you follow the tracks, Armstrong was asked to swear on a bible he went and he punched the guy in the face.. why? If I went I'd be bragging for days.....

We've learned a lot from space actually. Google.

Its not just pictures, we have rocks, we've built technology that helped us get to space that we use today in our daily lives. We have learned about stars and the planets around us.

Anyway,

How do you feel about nasa and space. Do you agree with me? The points I made? Let me know.. The launch of Sputnik-1 let everyone around the entire globe hear a transmitted beeping sound at certain times (based on Spitnik-1's orbit). Kids in America were receiving signals from this satellite created by a secretive government with mostly closed borders for a few hours a day.

Space is fake? How did this phenonmenon which you can literally observe with your own homemade radio occur?

Majoring in Chemistry and Physics, I can assure you that space does exist ?

This is the by far one of the dumbest threads. I'm sitting here trying to explain a first principle.

Kaiba Corp - July 10, 2017, 11:15 am

We invented both time and maths both are not inherently applyable to the space and universe however we perfected our invention to the point at can be used to measure space and time aswell as a lot of things in the universe. If an alien civilisation may exist I am very certain their math is very different from ours NOT superior just different.

Sortiace - July 10, 2017, 11:16 am

I think you are stupid but thats only my opinion im not upgraded on hf so my opinion is obv shit !!!

<-----

Elegant - July 10, 2017, 11:30 am

Why would you think that space is fake? If you go outside at night and see the stars, the moon, it's not "in" our space, it's in "outer" space. Meaning not in our Earth, if it's not in our Earth it's in "outer space". We can see that it's in outer space because of telescopes, and the billions of dollars that are being spent on NASA. YOU THINK WE JUST GIVE BILLIONS OF DOLLARS TO SOME PEOPLE TO MAKE SOME BULLSHIT UP????

Lor?d - July 10, 2017, 11:31 am

If you don't think someone created this masterpiece.. well.. you're misinformed.

Honey Cocaine - July 10, 2017, 12:02 pm

(Jul 10, 2017 12:01 PM)Yani Wrote: [\[CITE\]](#) It's quite easy to make this topic meaningless.

Reality and whatever you know is simply true, there's no conspiracies, just humans trying to do the good thing from their perspective.

Or reality is an illusion, like in the matrix, where we are farmed for our brain power. Everything in this so called reality is constructed to keep us thinking as much as possible.

Either don't fear the system, or fear it to the fullest.

If you're going to fear it only a tiny bit, why even try to figure it out? See you are wrong.
We only use 10?? % of our brain don't quote me and imo if you learn to meditate and unlock your
penal gland you'll become more awakened, not just what's going on but also doing stuff we are
currently limited to.

BE THE RESISTANCE not the scared.

ShallowME - July 10, 2017, 12:08 pm

I'm at a point in my life right now, where I don't even know what do you want to say ? Please
elaborate. Please.

First you say, there's no space, then you say there is, then you argue, we've never went into
space...can't you literally just google all these videos and watch them in FULL HD ?

President Morty - July 10, 2017, 12:08 pm

We did. Faked.

See this is another example of me being a fucking idiot and not saving videos.

DON'T YALL REMEMBER when china went to the moon this past year and put footage on youtube? Not surprised youtube keeps deleting it but their footage compared to ours were so different...

40 POST LIMIT NO MORE FOR ME GUYS IM SORRY :(

I know I'm shifting to a different subject in this post but it all ties in together.. don't you get it yet.. I'm american I've served the military. Not that that has anything to do with anything I'm just saying I live in the USA. THEY 'the globalists' are in control of everything. EVERYTHING. IF THEY wanted us to know the truth about space WE would have already known. I HATE being criticized for listening to Alex Jones but IMO he's a great man. SPREADING the truth. BUT what people DON'T realize is the fact that he's a puppet. Think about it. Snowden spread the TRUTH about the U.S Gov and they tried to kill him. Alex Jones is a whistleblower BUT he is also a puppet. A puppet to the Globalist to spread their agendas. See life is funny. They always tell us their plans, thru accidental words on live tv or whatever because they tell us what is going to happen we are just too dumb to realize it. That's where Fluoride comes in to the story but that's a different thread I posted already.

IS WHAT I WANTED TO POST

I'LL cya tomorrow I guess. </3 freaking limits man. Rubbish.

BRENDON-

If it has been debunked show sources.. Why the personal attacks? can't hold a debate without personal insults?

Anyway, IF you show me sources I'm OPENMINDED which means if I believe it I'll believe it.

BR?ND?N - July 10, 2017, 12:16 pm

"Like literally nothing but the moon landing"

Like bitch are you like literally like retarded?

ShallowME - July 10, 2017, 12:23 pm

I'd like you to watch this if you haven't already : https://www.youtube.com/watch?v=H7Uyfqi_TE8 and tell me how it can be faked, i know we're probably talking about 40 years or so but hey, it's all out there, and there are going to be so many people in on it.

BR?ND?N - July 10, 2017, 12:25 pm

(Jul 10, 2017 12:23 PM)Yani Wrote: [\[CITE\]](#) I was only giving a hypothetical example.

I'm just saying that what you perceive of the world could be far more far-fetched, so why not go all the way. Which was also sarcastic.

He lost me when he said we only use 10% of our brain (which has been time and time again debunked).

This guy has to be a high quality troll.

Adolf Himmler - July 10, 2017, 12:48 pm

Nah we live in computer programmed simulation.

TheWarOwl - July 10, 2017, 1:23 pm

I'm speechless... "Space is fake".

Firstly I'll address your actual post since you asked. Saying "What has nasa accomplished besides pictures of space", shitloads of things. They're scientists, that's why you're on your computer right now. Science Rules

Additionally, to take away their achievements in space is like saying "Without swimming, you'd be nothing" to an Olympic swimmer. Of course, dumbass.

Bub, build a rocket and put a camera on it. If space is fake I think one of the 7.5 billion people on this planet can easily disprove it ._.

If you don't believe space is real, your view on the universe becomes fantastically complicated, if not impossible.

BR?ND?N - July 10, 2017, 1:28 pm

(Jul 10, 2017 12:34 PM)Yani Wrote: [\[CITE\]](#) Nah he's right, because I believe and practice the same thing.

But talking about it that directly here on HF doesn't work, lol.
Nah but see, he's actually not.

We do not only use 10% of our brain. Our brains are capable of much more than we know of, yes. However we use close to all of our brain, just not at the same time. Different portions work at different times.

It has been debunked numerous times, despite what people "believe".

<https://faculty.washington.edu/chudler/tenper.html>
<https://www.scientificamerican.com/article/do-people-only-use-10-percent-of-their-brains/>

I trust the opinion of Neuroscientist over random people on the internet who also believe the U.S never been to the moon and NASA never done anything besides fake landing on the moon.
