Thread: [Angelus' Cheap Graphics Service // 1\\$ per design! // High Quality at a Low Price!](#)

Angelus - July 10, 2017, 7:52 pm

*Thread designed by myself

Welcome to my Graphics shop!

All orders should be in this format:

Type of Graphic you want done:

Color scheme of Graphic:

Links to images you want used in Graphic (if any):

Additional information or requests for your Graphic:

The order form should be PM'ed to me with the title: \$1 graphics request- [YOUR USERNAME HERE]

For a more comfortable and easier way to communicate with me while I work on your Graphic, you may add me on Discord, as I will only be communicating through that and HF PMs, no exceptions

I can and will provide you with constant updates and will not half-ass the job,

I will continue to ask you for specific information regarding the Graphic until you, the customer are satisfied

My pricing policy will not change, I will only accept BTC (with the possibility of other cryptos soon), no exceptions and if you cannot provide me Bitcoin the best I can do for you is redirect you to an exchange service.

Quote:I'm gonna open up payments to other cryptos and payment options next week

I wanted to do BTC for now because its basic and simple to setup, and I'd like to see how the service performs in its first week

My Promise to the Customer

"I Angelus, will provide you the best of my ability in the field of Graphic Design, as my skills and knowledge grow, so will my quality that I put out. No matter how long it takes to satisfy you, I will work my ass off to make sure you receive what you paid for."

NightForce - July 11, 2017, 12:06 pm

Only BTC as payment no ETH? Fees cost more than the service in BTC.

Saw his new hub sig, retro looking but in a modern way. Great GFX wouldn't hesitate to contact for my requests in the future.
