They are real man! :)

And yeah they are called oreos

They look real, and he's giving the receipt with it so you can always confirm with footlocker.

Most likely yes. I own a pair of turtle doves, but no model of the v2. I've honestly sort of faded away from sneakers in general.

I don't really know how to legit check V2's but \$300.00 and if they are real? Damn, I would cop these right away if I had money haha.
