Thread: [How to sell on HF and only receive bitcoin?](#)

SureDawgg - July 11, 2017, 5:29 pm

Is there a payment processor that will accept payments like paypal, bitcoin, etc that will only pay me in bitcoins? For example I want to sell an ebook and do not want anything but bitcoin in return for this ebook, while also wanting people who can only with credit card/paypal be able to buy the ebook? Is there a site that can do this?

Ratt - July 11, 2017, 5:30 pm

Check out Rocketr or Selly, hope this helps.

Armada - July 11, 2017, 6:15 pm

Hundreds of ways, but Rocketr is likely your easiest solution.

Riyu - July 11, 2017, 6:17 pm

There's nothing like that.

Rocketr and selly, do not accept CC & PayPal payments for you

J. McCarthy - July 12, 2017, 8:17 am

You'd need an exchange for that and since no one instant exchanges random cards or PayPal then no.

You can accept Bitcoin only on rocketr if you like

Royal ! - July 12, 2017, 10:53 am

Nothing like that.

A member tried to offer such service back in 2014. Worked great for a while but eventually he ran into problems.
