Awesome Spam service. Easy to troll newer streamers with.

It only sent around 20 spam messages, but Im assuming it comes with more if you actually pay for it.

You just enter the username of the Twitch streamer you'd like to spam, your unique code provided by xna81425, and the message you'd like to spam in chat.

Messages are sent insanely quick and from a lot of accounts. It's definitely fun using this service to mess with the streamer and the viewers.

It works great and it's very easy to use.

I 100% recommend buying this if you'd like to have some fun spamming on Twitch!

You sent the spam bots to a "follow" only channel.

I won't send you another code if you can't even read.

I tried several different channels.

Argh I should of never sent you the vouch. (Hate kids who can't read)

"I tried several different channels." - I clearly told you that the token I sent you works for only 1
"channel" before being black listed.

Of course it won't work after you sent it to a "follow" only channel. (Since code becomes invalid)

Please reread:

*System will only send spam if it detects a "valid token". (Success message does not mean that you
have passed verification - for those smart asses who try to input fake codes)

I passed out when you sent the token. I just woke up though and seen your PM. Went to try it but seems like there is an issue...

Thanks.. planning to add a paypal option.

H\$G0D - July 13, 2017, 10:51 am

The program works well, after clicking send (You simply write in their name, your authentication code and the message you want sent) and it sends it over.
However, there is of course a lot of limitation on said vouch copies (as he claims)
Edit: It does send extremely fast though, so that's a big plus.

I was unable to spam anyone where of the accounts needed to have verified emails, which is quite a huge amount of twitch accounts, so I had to browse down to the 1-5 viewer ones to test it.
The bots only sent the message once, he also claimed that this was a trial feature and it wouldn't happen with a proper authentication code.
The bots also did not follow the accounts, probably also a trial only thing.

Now, would I recommend this? Sure, if it works properly. I do not know this though as I had a trial vouch code.

Vouch for this man!

Awesome Spam service. Easy to troll newer streamers with.

It only sent around 20 spam messages, but Im assuming it comes with more if you actually pay for it.
