Thread: [Air Jordan V Retro Vector Illustration](#)

AvessoVision - July 12, 2017, 1:40 pm

After my [Nike Huarache Illustration](#), someone mentioned that I should do some Jordans.

A really old pair and somewhat iconic pair. Like I've mentioned, I'm really bad at color matching shoes. I'm still learning how to swap things out.

Practice makes perfect...and if not then keep trying.

That's it for now. I don't know when I'll have time for the next one.

I would definitely go with the black ones. Dapper.

What's your favorite pair? What should I do next? Tell me your ideas.

These are very visually appealing. I'd probably wear the first one; the next shoes you should try are the Adidas Explosive Bounce shoes, they're a little more complicated but based on your last two threads you might be able to do them justice.

These are so clean you can def look into selling these as vector images.

Dude you literally just posted one, how do you work so fast! I love the grey and yellow pair. Great job man. 10/10

These are actually pretty cool! I do love the black ones and would wear them gladly if they were real trainers.

10/10 - the black pair looks dope.

Thank you,

Actually went and checked the out. The main issue I have with them is that they have the flyknit material, which will be a pain to reproduce with shapes. They look really good though.

Thank you,

There are many similar images on the web, I doubt I'm the first to do so.

Thank you,

Yeah these ones are quite easy to make. They have basic shapes with clean lines that are easy to replicate.

Thank you,

I must say those are my favorites as well. They just look great and I kinda need a black pair in my life.

looks like u have some talent

keep a lookout for when a group owner is looking for a userbar to be made as would like to see your submissions for that.

rsx - July 12, 2017, 10:47 pm

Thank you,

Honestly, I've never done a userbar. Only small stuff from when I was younger on gaming forums and such. But I don't find that really something I would considering doing. I know people that have a lot more experience in that area.

Thank you,

I have a beat up Delta Force pair. Has a lot of sentimental value although. I'll never get rid of them.

Thank you,

I am really new when it comes to sneaker designing to be honest, but I am trying to learn more about since I am very picky when it comes to choosing a new pair. I'm all about diversity and experimental choices.
