I hate it when sites make it so users have to register just to see the cheat price and features.

No problem, it shouldn't be allowed to have a requirements to sign up via third-party sites and post there to get it.

Basically a mix of:

3. No referral links.
7. No contests or drawings.
8. You cannot require a post in a separate thread.

But whatever, :)

Not a referral link & I said to "confirm" your number but since you were too lazy to do something so simple which would only take about 5 seconds yet you finally replied to this thread. Not my fault. I gave you 24 hours, sorry and have a good day.

Quiet funny actually.

I'm not angry for not being added, i just dislike the idea of these "sign up here or you won't be able to participate" when it's a board for free services and giveaways. It's like all those giveaways on twitch channels that require you to sign up and follow on like 15 different sites to be able to join.

Nothing against you, just dislike the type of requirements these kind of giveaways have.
