Website Development Course Recruitment

About Dawn

Dawn is a group focused on bettering its members through education and guidance. We're always on the look out for any ideal candidates who can provide an overall positive influence to the forum. We work closely together behind closed doors as more than just a group, we're a family. Dawn is a group which believes that no matter your post count, reputation or join date you have something unique to offer this community. We just work to help you achieve greatness across Hack Forums.

Introduction

Dawn has recently been running a course on Website Design and Development and the good news is we're now looking for more students to enroll in this course. You can enter this course with minimal skills or skills you've had for years just never used. The aim of this course is to further support Hack Forums members in the various website related forums and not to mention potentially open new doors into a career you never imagined. This is your opportunity to begin to gain a new skill set, a chance for you to go from Student to Teacher. If you have an interest then, by all means, keep on reading and apply today, it's easy to do.

Requirements

We have no set requirements on an invitation, each applicant has their account investigated over by two Dawn members. We aim high and as such we aim to bring in different types of people with different background. However open scam reports and such are taken into account during the investigation.

mutybyte - July 18, 2017, 3:08 am

What has you interested in this course?

I want to learn web programming language because my aim is to be pentester and as pentester must know working of web programming language. Who know i become a bug hunter after understand the concepts of web development languages

Have you contributed anything Website Design/Development wise on Hack Forums?

Not yet

What is your experience with Web Development?

E.G. None, Newbie, Understanding, Advanced, Guru.

None

Do you have Discord?

Write Here

No but will make if i selected

How many hours per week can you dedicate to Dawn?

Write Here

6 to 7 hours may be more then that. depend on my job's holiday. nowadays can be 16 hours as i am free from job as session finished and will start from next month

Have you been a member of Dawn in the past?

no. I joined this forum this month

Baud - July 18, 2017, 8:40 am

What has you interested in this course?

I have quite a lot of experience with software programming but I never went too in depth with website development, although I have always been curious to research the subject so this sounds like a very interesting chance to learn something new.

Have you contributed anything Website Design/Development wise on Hack Forums?

Sadly not, but I wish I could do something development wise for the forum in the future.

What is your experience with Web Development?

Between newbie and understanding I'd say, I know HTML, JavaScript, CSS and PHP, but only the basics of each.

Do you have Discord?

Yes I do, I use it for personal purposes.

How many hours per week can you dedicate to Dawn?

I should have at least 2 free hours every day, which can increase up to 7 or 8 sometimes, so on average I'd say 35 hours every week.

Have you been a member of Dawn in the past?

No, but I noticed this group a while ago so I'm glad I have a chance to apply.

SIM-2263652 - July 18, 2017, 9:09 am

What has you interested in this course?

I want to find good developers

Have you contributed anything Website Design/Development wise on Hack Forums?

Well some minecraft hacking group website.

What is your experience with Web Development?
I own a company that does this for large corporations.

Do you have Discord?
Yes, mysticism #8273

How many hours per week can you dedicate to Dawn?
I don't know. Some.

Have you been a member of Dawn in the past?
Don't think so.

The Doge of Wall Street - July 18, 2017, 9:11 am

What has you interested in this course?
Been bussy with programming never looked to much in web dev

Have you contributed anything Website Design/Development wise on Hack Forums?
Not on hackforums made some basic and easy sites wheen i was broed

What is your experience with Web Development?
understanding (never touched js tough)

Do you have Discord?
@TheHelper#4217

How many hours per week can you dedicate to Dawn?
none

Have you been a member of Dawn in the past?
No

lua god - July 18, 2017, 12:48 pm

What has you interested in this course?
I wanna learn something new

Have you contributed anything Website Design/Development wise on Hack Forums?
I made a few posts in the PHP section

What is your experience with Web Development?
Understanding

Do you have Discord?
Yes

How many hours per week can you dedicate to Dawn?
3-4 hours

Have you been a member of Dawn in the past?
No

?A.J? - July 18, 2017, 4:36 pm

What has you interested in this course?

Mostly to challenge myself.

Have you contributed anything Website Design/Development wise on Hack Forums?

No ?

What is your experience with Web Development?

E.G. None, Newbie, Understanding, Advanced, Guru.

Understanding+ probably. I do have the following knowledge: HTML/5, CSS/3, JS, jQuery, Bootstrap, Wordpress, PHP. Currently learning Nodejs and thinking of learning Ruby at the same time.

Do you have Discord?

Yes of course

How many hours per week can you dedicate to Dawn?

20-25

Have you been a member of Dawn in the past?

No, have been away from HF for a while.

Nasyr - July 21, 2017, 9:38 am

I'll start looking at some applications tomorrow.

NurSpec - July 22, 2017, 3:02 am

What has you interested in this course?

I want to learn how to manage and develop websites as it is something that interests me greatly. I have a basic understanding of managing a website however nowhere near enough as I'd like to. I want to challenge myself and hopefully pick up another skill that I can use in the future to help other people with. I want to learn enough so that I can in turn help other members with their website issues. I'm not going to pretend or lie and I am definitely a newbie compared to a lot of members on Hack Forums. I have a fairly strong understanding of managing and developing forums and a fair amount of HTML.

Have you contributed anything Website Design/Development wise on Hack Forums?

No I have not.

What is your experience with Web Development?

Little to none. I have owned a MyBB forum with 5k+ members and managed the website myself however that's as far as I have gone. I know a fair bit of HTML but that's about all I have going for me, hence my application for this program.

Do you have Discord?

Yes I do.

How many hours per week can you dedicate to Dawn?

Depends on how many hours are required, however I am actively on Hack Forums for approximately 3-5 hours a night after work.

Have you been a member of Dawn in the past?

No I have not.

Danny Khalifa - July 22, 2017, 11:25 pm

What has interested you in this course?

I want to start learning web-developing and to manage websites. I do not have any experience in programming, but I would like to learn. And I would like to challenge myself by doing something new.

Have you contributed anything Website Design/Development wise on Hack Forums?

No I did not.

What is your experience with Web Development?

None. I really don't know anything. But that's why I am here. I would like to learn.

Do you have Discord?

Yes, I do have Discord.

How many hours per week can you dedicate to Dawn?

I can dedicate around 5 hours per day. I am very active on Hack Forums and I am also very active in group sub-forum.

Have you been a member of Dawn in the past?

No, I have not been a member of Dawn in the past.

Thank you very much for reading my submit form.

Kind regards, Danny Khalifa.

Sahaj - July 23, 2017, 2:58 am

One of the best, and most HQ groups on HF with down-to-earth people. Good luck to all the applicants.

Grem - July 23, 2017, 3:02 am

What has interested you in this course?

I'm looking to get a Microsoft Professional Certificate and get qualifications so I can sit a Web Development and design exam, this may be something that could really help me in my understanding with HTML. CSS. JS.

Have you contributed anything Website Design/Development wise on Hack Forums?

No I haven't

What is your experience with Web Development?

I have a basic Understanding of HTML and CSS

Do you have Discord?

I do

How many hours per week can you dedicate to Dawn?

At the moment I'm in between jobs so maybe 2-3 hours a day

Have you been a member of Dawn in the past?

No I haven't

zeroday - July 23, 2017, 5:32 am

What has you interested in this course?

I have a lot of interest in this field, I freelance, I private study, and I attend education in this field. The main thing I enjoy is learning new things. Not a day goes by where I don't learn something new. I'm hoping that this course would allow me to network with other people and take part in productive learning exercises so that I can learn more. I have been in a lot of groups in the past and they have given me the amazing opportunity of making new friends and learning a lot. I'm interested in this course because I believe that I could help fellow students and learn a lot from teachers and other students on the course.

Have you contributed anything Website Design/Development wise on Hack Forums?

I haven't done as much as I'd like to. Here are two threads.

[The Order | Free Custom CPA Landing Pages](#)

[Kaniel Outis' Freelancing Service - HTML, CSS, JS, PHP, JAVA, C#](#)

What is your experience with Web Development?

E.G. None, Newbie, Understanding, Advanced, Guru.

Advanced.

Do you have Discord?

Yes.

How many hours per week can you dedicate to Dawn?

At least 2 hours a day (14 hours a week).

Have you been a member of Dawn in the past?

I believe I have but I can't remember for definite.

Ultra Instinct - July 23, 2017, 1:32 pm

What has you interested in this course?

I've always been interested in web developing but had no clue where to start.

Have you contributed anything Website Design/Development wise on Hack Forums?

Sadly no.

What is your experience with Web Development?

E.G. None, Newbie, Understanding, Advanced, Guru.

None.

Do you have Discord?

Yes.

How many hours per week can you dedicate to Dawn?

2-3 hours a day excluding the weekends.

Have you been a member of Dawn in the past?

No.

Nasyr - July 23, 2017, 2:44 pm

I'll be reviewing these more tonight and contacting successful applicants!
Recruitment will continue afterwards, looking to get 5-7 students added.

The Doge of Wall Street - July 23, 2017, 2:46 pm

with my review i said 0 hours but i can give more then 40

Satoru Gojo - July 23, 2017, 3:32 pm

What has you interested in this course?

I plan to major in computer science in uni and eventually get a career in pentesting/cyber security and in order to take further steps to reach my goal I need to start learning how to code/program. I've already started in this endeavor and am currently taking a course on Python and I believe joining this group as a student would be one of the most beneficial steps I can currently take through the teaching of web development and just being in an environment of people with experience and knowledge in this field.

Have you contributed anything Website Design/Development wise on Hack Forums?

I've currently not contributed anything Web Design/Development wise on Hack forums, but that is due to my current lack of experience in this field. When I attain greater experience and skill then I definitely plan on attempting to contribute to Hack Forums.

What is your experience with Web Development?

E.G. None, Newbie, Understanding, Advanced, Guru.

None currently.

Do you have Discord?

I do indeed have a discord I can use.

How many hours per week can you dedicate to Dawn?

For the most part I'll be able to dedicate a few hours(3+) a day in the evening/nights and perhaps more/during the day on weekends.

Have you been a member of Dawn in the past?

I have never been part of Dawn.

ryyaen.bat - July 23, 2017, 10:54 pm

What has you interested in this course?

Developing website :)

Have you contributed anything Website Design/Development wise on Hack Forums?

None yet .

What is your experience with Web Development?

E.G. None, Newbie, Understanding, Advanced, Guru.

Everything, Coding, Design, Algorithm. Security. Back-end & front end user.

Do you have Discord?

Nope

How many hours per week can you dedicate to Dawn?

24/7, i live on the internet

Have you been a member of Dawn in the past?

Never, but will be (hopefully)

FFlick - July 24, 2017, 8:54 am

What has you interested in this course?

I'm highly interested in web dev

Have you contributed anything Website Design/Development wise on Hack Forums?

No

What is your experience with Web Development?

E.G. None, Newbie, Understanding, Advanced, Guru.

Understanding (I am learning)

Do you have Discord?

Yes!

How many hours per week can you dedicate to Dawn?

20+ (20 is a low-end guess)

Have you been a member of Dawn in the past?

No

Nasyr - July 28, 2017, 3:44 pm

A second wave recruitment will begin tomorrow, for a chance of entry apply now.

Lukas - July 28, 2017, 5:37 pm

Will any lessons involved within this program be focused towards MyBB?

Wires - July 28, 2017, 7:06 pm

(Jul 28, 2017 05:37 PM)Lukas Wrote: [\[CITE\]](#) Will any lessons involved within this program be focused towards MyBB?

That's a completely different course located [here](#).

Lukas - July 28, 2017, 7:37 pm

(Jul 28, 2017 07:06 PM)Wires Wrote: [\[CITE\]](#) That's a completely different course located [here](#).

Feel like a pleb, wasn't even aware that thread existed. Thanks.

Unknown - July 28, 2017, 9:25 pm

What has you interested in this course?

I feel like I could potentially use this to make a career for myself. I've been programming for multiple years, but never really thought it was something I could make money off of because I never understood web technologies.

Have you contributed anything Website Design/Development wise on Hack Forums?

I haven't

What is your experience with Web Development?

As I stated previously, I've been programming for a couple of years but never really got into web technologies

Do you have Discord?

Of course! Cynnamon#3784

How many hours per week can you dedicate to Dawn?

I have plenty of time, currently I'm home all the time looking after a family member.

Have you been a member of Dawn in the past?

I have not

SIM-3051398 - July 28, 2017, 9:33 pm

What has you interested in this course?

I am really intrested in learning some Web dev, and what better place to learn then a forums filled with experianced people!

Have you contributed anything Website Design/Development wise on Hack Forums?

No I have not I mainly have just asked questions revolving the Dev of my smaller projects.

What is your experience with Web Development?

E.G. None, Newbie, Understanding, Advanced, Guru.

Im pretty much a newb except I have made 1 CPA site and a little private website I did have some help from someone on hf on the site i linked below!

Link to my site: <https://cubruhtech.com/>

Do you have Discord?

Yes

How many hours per week can you dedicate to Dawn?

Really any amount.

Have you been a member of Dawn in the past?

Nope.

Crya - July 29, 2017, 12:57 pm

What has you interested in this course?

I am a current university computer science major, but the only issue is that there is never any focus on the web development side of computer science. Knowing intermediate understanding in C++ and C#, but have never really been able to dive far into web development. I had a brief introduction in high school where I spent a year working with front-side design and back-end PHP for a independent study/project for school. I have since had to move away from that for the time being, as I stated before, only work with C++ and C# for uni. Also another thing that sparks my interest in this course is the way and by who it is taught from. Most of the people that I learned from have not had any experience in development outside the school structure, which I feel like is a huge downside in terms of experiencing/learning what is really important.

Have you contributed anything Website Design/Development wise on Hack Forums?

I have not, but very much wish to. Just don't have enough understanding to contribute what I would like to.

What is your experience with Web Development?

E.G. None, Newbie, Understanding, Advanced, Guru.

I briefly explained this in the first question. I have a brief time where I worked with web development for a year about 2-3 years ago. I have a understanding of syntax for web development (HTML, CSS, PHP) being the ones that I have used. PHP mainly used for managing data from a mysql table that I needed, which is the extent of what I know in term of dynamic/back-end websites.

Do you have Discord?

hyun#4903

How many hours per week can you dedicate to Dawn?

~15 Hours

Have you been a member of Dawn in the past?

I have not

iHDCool - August 24, 2017, 5:13 am

Can you apply here even if you have an application on Dawn coding sector topic?

FluxCoder - August 25, 2017, 2:35 pm

What has you interested in this course?

I want to know if I can learn more, I already enjoy web development

Have you contributed anything Website Design/Development wise on Hack Forums?

I've have made some attempts to.

What is your experience with Web Development?

I've made a lot of websites, (Fluxrewards is my main current project), I used to do a lot of work for clients.

Do you have Discord?

I do, but I got it a while ago, so I don't use it that much, probably should use it some more, since a lot of people have it.

How many hours per week can you dedicate to Dawn?

I'm more active on some other forums, but I'm on here daily normally.

Have you been a member of Dawn in the past?

Nope.
