Thread: [NjRAT over Quasar or Quasar over NjRAT?](#)

**Quacker Oats** - July 13, 2017, 1:31 pm

Which one do you prefer when it comes into stability and performance and why? NjRAT or Quasar?

**Windows** - July 13, 2017, 1:32 pm

Probably Quasar because its stabler to use than NjRAT since that has been out forever and may not be that fast or a bit unstable.

**Quacker Oats** - July 13, 2017, 10:09 pm

Bump.....

[warn]

**#Skyline** - July 13, 2017, 10:32 pm

Of course Quasar, it's open sourced.

Is it compatible with cyber-seal?

Yess it is. You need to search a crypter who support .net files

No it's not actually.

**yotoprules** - August 21, 2017, 8:28 am

njRAT because Quasar requires .net 4 while njRAT only needs .net 2, which is a lot more compatible with more crypters.
