Don't get ripped off. Many "cheap" web hosts store your sites on low-end servers, residential networks and even on stolen/hacked webspace. Unlike these hosts, we're a real, incorporated company (ACN: 617 878 467) utilising a world recognised datacenter. We store accounts on the incredible QTS Piscataway, with its over 360,000 sq. ft. of space and 24/7 on-site security. Our datacenter features the best in redundancy, security, reliability, and eco-friendliness. Our webspace is lightning fast (1Gbps Uplink), with daily backups and access to website builders and a fully-featured SEO toolkit.
