BEFORE YOU READ THE REVIEW

Spoiler [\(Click to View\)](#)

-You must understand that the reviews I make are from my point of view.If I grade 3/10 that doesn't mean the method itself is bad, maybe for other people that method is 7, so keep this in mind when you're reading my reviews.

-My reviews will probably piss off many people and break some of their businesses ...or raise them.This means I will not debate with the sellers whether or not my reviews are accurate.Unless there is really something wrong I won't recheck my analysis.

-I review good and bad products, not only bad products as some of you may suspect.In the end, remains the decision of the reader if it's bad or good.

FAQ

Who am I?Spoiler [\(Click to View\)](#)

-A random guy that bought dozens of methods in the past few months from HackForums Sellers, and with disappointment, I announce that 90% don't work or they require insane hard work to even get them started. Highly "vouched" methods, with "valid proofs" from so highly upper-class "highly vouched members/old members" or how you want to call them, methods that look good on paper but on practice leave you with a sour taste in your mouth and with dust in your wallet.

-For those that keep asking me, "who I am and how I buy for months but my account is only for a week". I've been on hackforums for awhile now, my first account was around 2009 but was disabled due to inactivity. I kept coming back.Never engaged in topics too much.Until 1'st May 2017 when I decided I should make reviews about products.

What I'm going to show you?Spoiler [\(Click to View\)](#)

Few angles to look at when you're buying a method and few insights of what each method consists of.

I will keep this short and say this - you don't have to become an investigator but in the end is YOUR money and YOUR time you're going to throw at a random guy that promises you the moon.

Files:
- Contains 1 pdf with the guide.
- Plus some bonus tools to ease your work.

A short introduction of what actually contains:
-The ebook relies on how to grow your Instagram account and how to be more "pleasant" for your viewers/future followers.
-A bit of creativity will be required, nothing too hard and a bit of work. Maybe more, depending on how bad you want it.

REVIEW:
Vouches:

Spoiler ([Click to View](#))
0/10
Nothing to analyze.
Doesn't have any vouches.

Vouches such as "Vouch for X, he always has great products!" , "You can't get wrong with X!" , "I

vouch for this guy he knows what he's doing!" , "I tested out this product, it works! Great Product!" are not taken into consideration. Vouches without legit-proofs are not taken into consideration. Text-proofs are not taken into consideration. This is a community and in the end, people connect to each other either by friendship or a common interest they'll provide a vouch.

Proofs:

Spoiler ([Click to View](#))

0/10

Nothing to analyze here.

Does not provide any proofs earned from his own methods.

Personal review:

About the product:

Spoiler ([Click to View](#))

(This is not a money making Ebook, therefore is not rated as one.)

-It's recommended an older account due to some perks you have but works also for more fresh accounts within limits. And provides examples where to buy them from in case you really want an older one.

-You need a niche if you don't have one already. Most people already have one.

-Gives you an idea on how to promote your content better to the public.

-Provides information on how to make your Instagram more appealing to the public, how to choose your avatar, pictures, how to make them more interesting, etc.

Few psychological tricks to attract people.

-Provides examples on how to use the right hashtags and a source where you can create them.

-Provides a tool to "farm" the content that you put it on your own IG.

-Provides a tool to automatically post on your account at the right time.

METHODS:

-Provides four methods to grow your followers base.

•First method - It's slightly risky if you have a new account. But the seller provides what limits you should follow. Requires a bit of work.

•Second Method - This is a bit more advanced, if you already have a few hundred followers, provides few examples, how to engage other people's profile.

•Third Method - Similar to the first method but paid. You're going to pay for some tools that will do the job automatically for you.

•Fourth Method - Convincing competition to do something with you.

-Some things will require a bit of creativity.

About the seller:

Spoiler ([Click to View](#))

7/10

-The sales thread it's opened quite recently doesn't have many questions inside the thread, therefore, the grade is not higher.
-The seller is not shy with his product, what he offers that's what you get.
-I am not a big fan of the price but I am happy with the product.
-Promises at least 300 followers a day, I would say if you put the right amount of work and a bit of creativity can go a long way.
-If you are completely noob at how to set-up your Instagram and start growing a base I want to say this guide is for you. Provides nice examples and useful tools. Me personally, I am happy with what this Ebook had to offer. At least for reviewing a first Ebook based on growing your IG.

Does not provide proofs.

This grade reviews his way of advertising, addressing to potential customers, his behavior and his way of convincing them and the connection between him and his Ebook.

Why can't you still rate it?

I don't have a scale to follow on this subject, didn't buy many guides on growing IG in the past, therefore I feel a rate would impact too much the product and won't be accurate on a larger scale.

That's pretty unfair don't you think?

Thank you for the review, appreciate the honesty

One of our biggest selling points is the 24/7 support and we will guide you through choosing niches and assist you out of our own time to grow your account.

Why is it unfair? I think its very fair. When I'll buy/review more IG growing methods I'll offer a grade.

It's unfair to the other ebook sellers you have reviewed? You offer a rate for theirs and not this one. If you're not familiar to IG methods then don't review one as you would essentially be clueless and have no idea if it's public knowledge or not then.

A review without actually executing the method is just as solid as the seller's word. I agree, if you don't partake in a certain niche, don't review an eBook exclusively revolved around it.

Aha, let's take as for an example a method that tells you to sell Minecraft accounts, tells you to buy them from X and sell for a profit on HF and forums alike, right? If you are new on these type of forums it will take weeks, maybe months until you're going to make few bucks: Until you set-up how to advertise, how to promote your product, building trust around the forum, keep in mind there will also other people selling same stuff. You want me to spend weeks maybe months so I can be entitled on making a review that will look exactly the same as if I wouldn't test the method?

Based on your own words you are too new to be able to do it. Fair enough.

I have not read every review you have done, but I am. pretty certain you have not fully implemented every method you have graded. And it's fair you haven't.

But don't review it if you can't do it properly is all i am saying.

Fuckin Ebert maybe dunno about chick flicks, but he will publish a review, Watch it, tell you a bit about it. But no review or recommendation?? Get real. That is a required component to be review.

Because it's unfair to shit on someone's eBook but he doesn't rate someone else's? What don't you get?

You dont even try the methods, you just take a guess at it. I can tell your fucking clueless about the topic by how you write about the methods.

Like you read the book, rephrased it to be non exposing, and posted it with a random number rating.

You are using this shit to get free stuff and then give a shallow written review with a fancy template

to make you look like your reviews are so much better than others.

And no, Im not writing a review on your ebook, its utter shit and not worth my time. Part of it is literally

Kindly fuck off the marketplace

Simply the way you acted was enough for me to not want review it. I dont know if you understand that. Its not a valid dd.

Its not a "nice try" you completely avoided my point. You dont try these methods. Wheres your attempt at this one? Instagram pages dont go away as fast as money.

You shit on people for not having proof, but never provide proof of trying it yourself.

Keo acting this way and see how it goes
