Thread: [Report bot website source](#)

Reyyzan - July 15, 2017, 5:30 am

Hey guys.

Today I decided to share a report bot website source.

Pretty sure it is yeah.

I didn't claim it was private, I'm just sharing it since it's not on HF

Love how you edited your post, before it said "PM me to get it"

Is this still allowed to do this? I thought you couldn't ask for PMs anymore

7. No "Post Here and PM me" threads will be allowed. This includes "Post Here and I'll PM You" or any "Post to PM" threads.

PM me

You really need someone to do this? How sad.

I guess the "how to setup" is way too hard, lol.

Speak to me when you work 70hrs a week, having to travel 40mins each trip to work. Don't have time to learn, would rather pay someone from this site (generate work and share \$ around with other members) and then we are both happy?

but yeah grats dude... you've officially made me waste 1min of my day replying to you.
