Hey there, I`m new on the forum, so I`m probably posting not on the right section.

Got a question about the "pay by phone,pay by call, pay by sms, phone payment,sms payment,mobile payment,premium sms,online payment,micropayments,payment system,sms billing, mobile billing,phone billing" stuff.

Here its goes my ideeaa and then the question.

I can make full subscription cell phone. So I can call and send SMS all over the world between 11 PM and almost around 9 AM (until the operators for the cell phone company start works and his online to suspend the subscription).

I`ve been used some local mercants who accept pay by SMS. list of them. There are 3 most known - ePayment (accepted for 2 months with no limits of sending sms) mobilpay (20E/month per number) and platiprinsms (this one the same with the limited sms pay 20E/month per number)

These are the sites wrom were I bought by SMS.

hit <http://translate.google.com/> to translate this pages. and yes I`m Romanian, searching for new ideeas how can I cash out by this two ways :

SMS and Calling.

www.daopay.com - doesn`t work nice, couse from 100e I got 10e.

I have thought buying a cellphone number, a international number with over tax, were this numbers can charge me with as much as they can.

But don`t wanna buy it here, locally. Anywere but not from here.

The question is : Got someone better ideeaa how to make money by this thing? I can call anywhere in the world for more then 5 hrs and maxim 9 hrs per night, send sms to unlimited numbers, you just tell me, what can I do ?

If someone does have this kind of number, we can make a share, hit me.

P.S. I`m sorry for my english. (and tell me were to post this kind of thing lol)
