I'm 99% sure OP is not a clean link. DON'T TRUST til someone can confirm if it's clean or not.

Skir - July 17, 2017, 3:30 am

???

U cant check if is it clean or not ??

WTF u do then here ??

WTF u do then here ?? download this ebook about kali linux

but you're hating cus someone cant check if a url is clean ?

maybe he is on his phone ?

you're the one here sharing a book about kali linux xD

Skir - July 17, 2017, 1:13 pm

@MR.I

Dont know who hate here but if u are on hacker forum i think u need to know minimum about hacking and this is check links or files.

Now new method's many antivirus dont see so if i like to add any in pdf i can do it but tell me how long will i be here after that ??

I think its a Hacking community thats reason why i share some books.

If members not like it we will stop with it ..

Thnx and B.R.

@GhostLikesToast

If u think while i use tinyurl that i post infected files u are wrong i use tiny to have smaller link while i haven't enough posts to upload links or files :(

i'm getting so cringy over your attitude

dont act like you're a pro in hacking or anything with computers...

No bro not professional only old school guy before 20 years old school user know me and we change to gsm unlock and in hobby still do some good things for hack community ..

Pro is someone that have 24h time only for this and we have 4 shops for gsm repair and in free time we read and test security holes in many projects :)
