Thread: [Rap Verse I'm working on](#)

BR?ND?N - July 16, 2017, 3:04 am

Despite my mic being broke, I still write shit I plan on turning into songs some day.

Today millions of people died, now to our main story
This celeb got an ass job and this one talks about being horny
Buy our products and please stay tuned for more alternative facts
That we package up and push out through a Donkey's ass crack
Welcome to America, oh how I love the land of the free
Where violence is okay but sex should never be on TV
Where our policy is to funnel what our citizens see
And control them with the NSA and the FCC
God bless the land from California to New York
Feeding you lies in the form of front page news reports
The oil runs the country so I really don't find it funny
When we don't ban the threat, because Saudi has our money
Hand every crazy kid a gun and let him handle population control
So the media has a new cash cow so they can keep their pay roll
Lie, lie, lie and let the service men die and push it to the side
So we can tell you everything you do is either wrong or right

I was in the middle of writing a parody for a greenday song. Maybe i'll finish it up and post it.

An?iety - July 16, 2017, 3:14 am

Immortal Technique is a known fucking rapper who gets paid to rap though, of course he does it better. If he sucked he wouldn't be getting paid ?

My computer chair is my throne,
In the basement of my parents home,
I don't wash my clothes,
I have no friends and i am all alone,

Every night I beat my meat,
On my dry and crusty dirty sheets,
Oh my odors do excrete,
From my underarms oh what a treat,

I don't think he is coming back. Omniscient negged him, perm denied him UB3R and suspended his posing abilities permanently as well.

perfectcombo - October 14, 2017, 3:45 pm

was nice dude keep up the work

Elitas - October 21, 2017, 5:55 am

I can't say I like the bars on this rap (there should generally be the same number of syllables to roll of the tongue easier), but the rhymes and meaning are very good!

Aedan_ - October 28, 2017, 5:29 pm

I feel like there's too many words in a line, other people might have different opinions but quicker transitions between lines sounds much better to me.

Also, instead of rhyming the words one line after the other, make a 4 line "paragraph" if you will. For instance:

Crack
Paper
Back
Vapor

and not like

Crack
Back
Paper
Vapor

I just think it seems better the first way, but again different preferences. Best of luck, sounds great!

ZooTedl - November 4, 2017, 2:41 am

Lemme bet your a Lupe fan ? Haha i like the verse man. You got a soundcloud?

Man I gotta say this rhyme is fire... I think it's really good. Do you maybe have the track where
you've written it under? I would really want to try to sing it :). Keep the good stuff going, and
remember everything that you do well; charge people for it!

Hyanix - January 1, 2018, 11:29 am

Keep going, maybe add some more anaphora, alliteration and shit. Just keeps it fresh.

LuX98 - February 10, 2018, 2:31 pm

Cool message, better than some of the popular stuff right now. It is certainly better than Gucci Gang.

Shorta - February 12, 2018, 9:46 am

I'm not a fan of only end rhymes.
