Thanks, I am honestly already very addicted to gambling. I started as a child on runescape some years ago buying GP and staking it. then moved to BTC gambling probably 2 years ago. Made thousands lost thousands the cycle keeps on. I am trying to keep it to minuscule amounts these days though.

Yea,its awesome when you win in gambling sites,but when you get too in depth, you might lose everything. Anyway once again enjoy your stay ?

I have lost much as well no worries! In the passed on primedice i made \$10 into \$2500 then lost all except \$100 made that into \$2000 lost all then a month and a half later did it again with \$25 made it to \$2k then lost all. That's when primedice was a good site though.

It just became shitty and not the way it used to be I guess, I don't know how to explain it. It is not possible for it to be a scam though provably fair.

You could've bought Epic which also gives you PM space and is cheaper. Anyways congrats on L33T upgrade.
