Hey, I'm looking for a designer to design a clan logo along with a banner.

Color Scheme and design should be like Virtus Pro:

Spoiler ([Click to View](#))

Except the polar bear it should be something like a tiger/lion/cheetah

I need a banner for Facebook page as well so yeah make something for that too.

I'll be paying \$15 PayPal or BTC (but prefer PayPal)

If your budget can be raised a bit I can do it for you.

\$15 is a bit low for this job to be honest.

As Amnesia said, if you can raise the budget please contact me.
