Thread: [\[Check up\] very slow PC lately](#)

thePoltergeist - July 19, 2017, 10:59 am

FRST: <https://pastebin.com/TQQSP8pu>

Addition: <https://pastebin.com/crKWQhL2>

Been acting extremely slow and sketchy lately. Hopefully one of you guys can give me a hand!

Flaws. - July 19, 2017, 11:08 am

I'm no expert but all i can see is a really messy browser and just about nothing else

But, thats just my views i may be missing alot

There are driver issues and a bit of adware.

Please uninstall the following using control panel:

Ace Stream Media 3.1.7
Java 8 Update 101 (64-bit)
Java 8 Update 91
Java SE Development Kit 8 Update 101 (64-bit)
Yahoo! Powered

Then download the latest java from java.com and install it.
