Reason's why I deserve HF L33t.

-I've been active on these forums since december 2009, I sign in everyday.

-I Finished 3rd in Prodigy's L33t Contest.

-Over three weeks of activity on these forums.

-I help those who are in need, feel free to check out my posts.

-I contribute to the forums, check out some of my threads.

-I donated my Hf l33t money to the HJT team as I considered the important role these members place in this community without asking for anything in return.

-I Would consider the majority of my posts High quality.

-I can't afford to purchase L33t because I have no way of transferring money to my paypal account.

What would I do if You accepted me for L33t.

- Change my username as I didn't go into much thought when I created this account.

- Create some more tutorials.

- Sign in and post more regularly from a day to day basis.

- Scream omg you have to be joking :p

Thank you for taking the time to read my post, I hope you understand the importance of how much I

want this upgrade, if you feel like discussing anything I listed above please feel free to shoot me a private message so I can sort out any questions that you might feel free to ask.

Thank You.

I am very active and helpful member. In these two/three months that I am here, I become known as a quality and helpful member. I'm most active in the Computing section (Computer Protection and Security Alerts, White Hat Help and Microsoft Windows, XP, Vista and W7 subforums) such as in Beginner Hacking and in Monetizing Techniques sections. I believe that my posts are quality and really helpful to the members. You can see my personal knowledge and qualities from my acceptance in The Alliance. I have contributed a lot to the HF (giveaways, tutorials, guides, compilations..) and I'm happy about that. I've made two mega threads, one in Beginner Hacking section, and one in the Computing section. I'm the member of the Graphic Masters group, as well.

My current computer hobby is testing security softwares, and in free time I am assistent in reviewing of antiviruses for one independent website. I want to become white hat hacker, and I'm gonna work hard to accomplish that. Salute.

Here's my application

To tell you the truth, I've never really wanted L33t. It just wasn't one of my goals but now I'm becoming more and more active and really want to apply for this. The biggest reason behind not wanting L33t is probably because I don't have Paypal (and other like services). My parents don't think I need Paypal, therefore I don't have it. It is also hard to acquire a high number of rep as the main options of obtaining it are limited - posting tutorials and selling stuff in the 'Marketplace'. Unfortunately, I can't partake in any Marketplace sales because of me not having Paypal and thus leaving me with only one option. Although, I am aiming to fulfill that one option in the near future.

I've been a member since March 2009 and through most of my posts, they have been of pretty high quality and have also helped members (especially beginners). Please don't judge me by my post count, as I don't post in every single thread. I just post whenever I deem it to be necessary. I also think my knowledge on hacking can be a great addition to the VIP section and I'd try my best to do frequent giveaways.

I don't really have many good stand-out threads. Although, I have helped out my friend whenever he posted a thread, if you want to PM him, he can easily vouch for me. One mentionable is this one:

<https://hackforums.net/showthread.php?tid=82644> - Cracking AIM accounts (Service) by âœŽManiakâœž, helped him out regularly. And, after all, I did teach him how. (About 13 000 views).

Sure, my tutorial contribution is probably my downside here. But, what I can assure you is that I will post some of my own tutorials during my activeness. And yeah, that's about it ?

Quote:I also think my knowledge on hacking can be a great addition to the VIP section and I'd try my best to do frequent giveaways.

You should be wise about giveaways in the l33t section because most people there are leechers and just overall pricks.

One of the reasons I almost never go there.

Reason for application: I'm applying for l33t because I have a friend who currently has l33t and it's one of the best VIP's I've seen for forums. I feel like I could do a lot more as a l33t member than as a normal member. I also help contribute to the community socially by participating in debates and discussions. I've tried three or four competitions for upgrades, but never won any. My best threads:

Although I've lost several times, I've tried to be a good sport at it. I've helped numerous HF members with their problems, and answered questions for the newer members. I'm a very active member of the community, and I've made one tutorial that was a pretty big hit. As you can see in the picture below. ;) I've helped a lot of HF members earn money for their own personal use, like Bryan and clicking over 1,000 adf.ly links for other members.

I have always tried to make new members feel welcome and make people laugh, and I also recently started to voice my opinions in the Feedback section. :) I've given away a lot of free things such as Medal of Honor Codes and really useful Coupons and I look out for other members as you can see from my rep. :) That's why I think I deserve L33T, thanks for your time. You can see that I help a lot of people by looking at my rep. :D

I saw your thread nice and I'm writing here for getting leet grade. My name is Ted aka. Chr0sy. I have 42Rep and I'm growing. I have around 400 posts and I think I deserve leet for the following things:

- I have some months I have registered in Hackforums.
- I stay active and post here everyday, considering weekends.
- I post many in Hacking Tutorials and in Monetizing Techniques.
- I encourage people to make money and I teach them how to make money.
- I have many friends here, ub3r or l33ts that <3 me :P.
- I think I deserve leet for the following threads I made in these months also:

<https://hackforums.net/showthread.php?tid=550223> - 101 Replies and around 2000 Views.

<https://hackforums.net/showthread.php?tid=565271> - Even that it hasn't many replies, I gave around 3\$ to two members for only making a survey.

<https://hackforums.net/showthread.php?tid=408532> - DDos Software that many people liked it.

<https://hackforums.net/showthread.php?tid=453622> - Guide to close Facebook accounts, around 100 Replies and 4000 views [HOT].

<https://hackforums.net/showthread.php?tid=485230> - Active in The Lounge, exactly in the Sports section.

<https://hackforums.net/showthread.php?tid=411513> - Posting tutorials for how to send anonymously emails via Telnet.

--> These were the threads I've made so far, I've made many posts where I helped people.

My Warning level is 0%.

I have only 2 negative reps that I've made mistakes in the past, but I learned from them and I won't be making bad things anymore :)).

Thank you,
Chr0sy.

Vouch for him. He is very helpful to the community and also to individuals. He is also a great member to talk to, that can help you through various problems. I have known him for a while now, and believe me when I say that he would be the best choice for I33t.

If you do upgrade him, expect to see him posting many private stuff in the I33t section.

I just saw this thread :O. And would like to apply

I feel I deserve Leet as i'm a very helpful member around the hackforums community always trying to give good advice to all new or even old members who don't understand something.

I only really have one thread where I have helped people

<https://hackforums.net/showthread.php?tid=410710>.

I was going to charge but I ended up doing it for free. I'm not much of a threadstarter but more of I look at threads and help people with their problems. I can't link the posts as i'm short of time and the competition is about to close. I have already been approved for a straight upgrade to ub3r from Omniscient also but can't even fund my leet upgrade :(

I'm always active also and looking for more members to help. If I won this I would be extatic but if you feel that someone is more deserved than me then it will obviously will go to them so good luck everyone ?.
