Thread: [Any medical students/nursing students out there?](#)

fnatic440 - July 19, 2017, 2:37 pm

I want, out of goodwill, to share my medical/nursing notes with you. I'm also hoping to find some people who share medical passion with me, or who are already in medical school so that we can discuss, study, and go over cases.

My Amazon drive currently has around 100 GB of material in the form of lectures, reviews, E-books, and notes, including step 1, step 2, and step 3 as well as nursing related material.

PM if you are interested in either one.

i'm enrolled for pre nursing in september ? hoping to reach an NP

Nima304 - December 29, 2018, 1:12 am

I'm studying to be an EMT (finished the first class, going through the second class this spring), so this isn't as useful to me, but thanks for doing this.

damn we got medical students too in hf ?

rachelcummings - December 30, 2018, 9:26 pm

:v I used to wanna be a doctor, however, my Chemistry and Physics points is not good enough.
