Thread: [== SECRECY == >>> FREE INSTAGRAM AVAILABILITY CHECKER <<<](#)

Pronouncer - July 19, 2017, 3:55 pm

Introduction

Thank you for clicking on the thread. As part of the group Secrecy, we will be releasing an Instagram Username Availability Checker.

What is it?

This tool checks long lists of Instagram usernames loaded from a TXT document in the same directory. This tool will check if they are available using the registration method.

This tool DOES filter out banned names.

How to get?:

Post here once downloaded

Why pay for an Instagram tool when this here ?

Pronouncer - *July 31, 2017, 7:31 am*

Still a free tool, stop buying terrible software

The file you are trying to download is no longer available.

This could be due to the following reasons:

The file has been removed because of a ToS/AUP violation.

Invalid URL - the link you are trying to access does not exist

The file has been deleted by the user.

Can you update the download link please?

Pronouncer - *September 21, 2017, 12:09 pm*

Download link is now working sorry for the delay

Hula - *October 14, 2017, 11:49 pm*

can i please get this thanks

this was inoperable for me. I have wine installed on Linux (I installed it today for the sole purpose of running this EXE file), and I am unable to run this EXE, or any. If you could provide support for me that'd be splendid. Thanks
