Thread: [I am embarking on my Gundam journey](#)

DerMensch24 - July 20, 2017, 9:30 am

For too long I have pushed off my journey into the world of Gundam, having only one of them under my belt. As of today I will begin my journey, I do not know when I shall finish but finish I shall. I'm off to Universal Century 0079, wish me luck ;)

Yandere - July 20, 2017, 9:44 am

Japanese is probably happy to see this.

Ang?I - July 20, 2017, 10:06 am

If you need any help don't hit up japanese but me instead :^)

Thanks mate ;) I still have this Gundam chart from a while back that Japanese or someone else linked so for now I'm good. Although I might come back at some point if I need help with the chronology of the timelines (not necessarily the years they came out).

If I remember correctly you were only familiar with G Gundam right? If so then you're in for a world of excitement, especially since you're going through the UC timeline.

I just finished the original / 0079 yesterday . It had it's slow or boring parts but was also really good . Gonna watch war in my pocket 0080 and start zeta today

Barney - July 20, 2017, 2:15 pm

I do not know about the other gundam animes but i sure did enjoy mobile suit gundam

Deany - July 20, 2017, 4:07 pm

Ya but none of y'all even build gundams IRL ? ?

Aura - July 20, 2017, 4:37 pm

Let me know if it's worth jumping in the bandwagon or not.

So far its pretty good, and ye I'd agree with Japanese that they're pretty OG when it comes to design/aspects.

Ye its the only Gundam I've watched thus far. Also what's good brother, I don't see you in AA too much.

Deany - July 20, 2017, 7:41 pm

Someone needs to host a gunpla disc so we can jerk off together

DerMensch24 - July 20, 2017, 10:35 pm

Yo this Char guy is pretty OG for a foil against Amuro

They're both evenly matched in skill IMO.

Wait til you get to Zeta it's the best UC

HAHA this vid is cute. UC friends meet CE friends.

I love Char Aznable so much. Best character in Gundam by far. He is also who other masked villains from other timelines are inspired from; A bit cliché but hey.

Good to hear you're doing well.

And hey for all we know he's the one that set the stereotype so probs not a bad thing to be a fan

Does the dub VA for Amuro happen to be the same guy that does Light Yagami? I just noticed it and they sound eerily similar

You're absolutely right. Brad Swaile is his name and I believe MSG was his first VA role.

Damn that's pretty sweet, I just double checked as well. The whole VA dub cast has some OG members.

Also update: on ep 8/43, for a 1970s anime its very original about maintaining intensity and plot movement, can't stop watching ;)

CorrosiveBlueberry - July 23, 2017, 4:10 am

I've been watching zeta after completing MSG I'm at 18/50 it's pretty good. I like how it varies from the typical zeon vs earth federation. It introduces new factions called the Titans and aeug

Zeta in a nutshell:

KAMILLE!

KAMIILLE!

KAAAMILLLEEE!

Isn't the hyaku shiki just a Gundam mark 2 they decided to paint gold? Or is it completely different

http://gundam.wikia.com/wiki/MSN-00100_Hyaku_Shiki

it's not a gundam, just a generic mobile suit.

Lol only been a week or so, and alright, halfway through Gundam 0079 as of this moment, been a bit busy so haven't been able to binge it.

CorrosiveBlueberry - August 3, 2017, 10:16 am

I'm still only 29/50 through zeta. Cba to binge it either ; I've kinda got it on hold on my Plex

deejayloon - August 12, 2017, 7:48 pm

SIEG ZEON! good luck bruh!

DerMensch24 - September 3, 2017, 9:54 pm

Finally! I just finished Gundam 0079 after much time, but it is done! I'd give it a 8.5/10, was very nice overall and a nice realistic touch for a military anime.

My only complaint though

Spoiler [\(Click to View\)](#) I wasn't sure about the whole "new type" human thing being added near the very end of the series. Seemed as if they were running out of ideas other than making better mobile suits, but doing the whole psychic thing so late into an anime seems detrimental overall, however they managed to keep the anime consistent despite this.

Now then, onto War in the Pocket and then Zeta Gundam ^-^

biscuit deluxe - September 3, 2017, 10:23 pm

Oh boy look what I found

Deany - September 3, 2017, 11:35 pm

bet they had some big ass nippers to cut those out from the runners ?

DerMensch24 - September 4, 2017, 4:07 pm

Just finished 0080 War in the Pocket, some sad shit there, pretty good plot tbh, gave it a 9/10.

Should I go strait to Zeta Gundam now or do I need to watch 0083: Stardust memory first?

Edit: Also should I watch Mobile Suit Gundam: The 08th MS Team before Zeta as well or wait till afterwards?

Watch 08th MS team after Zeta. 08th was really friggin good and had better animation.

Spoiler [\(Click to View\)](#) Unfortunately, the whole New Type thing remains with the whole UC timeline. It was later revealed to have more reference toward meaning "ace pilot" than being a psychic human. But the whole "superior humans" thing is a trope that remains within the whole Gundam series. I wouldn't say it is exactly detrimental to the plot for the UC timeline as it creates more depth behind why the protagonists/antagonists are so overpowered.

War in the Pocket was amazing. Glad you liked it.

I would watch them before Zeta, but they are not important to the main story though since they serve as side stories. Stardust Memory was probably my favorite though. Great story and amazing animation. Not to mention the Gundams from it are top notch amazing.

Spoiler [\(Click to View\)](#) It wasn't that I didn't mind the concept, I just thought from a storytelling perspective that they added it way too late into the anime for it to be effective in the final eps. Huh, I didn't think of "ace" from the way they described it, they worded it like superior beings and evolutionary stuff.

Ye WIP had a nice plot, sad ending though in a way but I liked how the plot wasn't centered around the actual conflict itself but more as a side story.

Hm, I might save them for later, Japanese got back to me before your response saying that it was probably better to continue onto Zeta and save them for later as a treat.
