Thread: [Any email sending Guru over here? \(PAID\)](#)

SouLTrader - July 20, 2017, 10:06 am

Is there a forum member with balls who can teach high inbox rate email sending techniques? I'm sad to see no one on HF is good at this subject.

Willing to pay to a mentor.

It's really easy, if you have autoexploiters.

In the event you were to have, let's say a few, how would you go about getting massmailing done?

Check for mailing function and hope it reaches inbox 4 out of 10 of my shells go into inbox

Shikatanai - July 20, 2017, 4:31 pm

Inbox or not, it's depend to your letter and your smtp bro, pay someone to design "creative" letter, and buy non-blacklisted smtp's ip

I cant provide letter, but if you need smtp let me know
