Thread: [\[TUT\]See Hidden Facebook Pictures](#)

Vip3rr - July 26, 2010, 4:38 am

Hi,

here is a small Tutorial for you that makes you see pictures in Facebook from people you don't know.

It's very simple:

1. Go to the Profile-page of the Person.
2. Clear your Address line
3. Copy this into:

Code

```
javascript:(function(){CSS.removeClass(document.body,%20'profile_two_columns');tab_controller.changePage("photos");})();
```

4. Now you can easily see Pictures of s.b. you don't even know.

Best regards and Have fun!
