Thread: [Most Common Hacking websites you visit daily apart from Hackforums.net ?](#)

**Shahenshah** - July 21, 2017, 10:02 am

Which websites do you visit to learn about hacking &/or interact with other hackers on a forum...just like HF ?

Like:

- Cybrary ?
- Exploit.in ?
- etc etc ..... ?

i used to visit club penguin every day for hacking but, sadly it got shut down. Now I go to hackforums daily instead.

**Riyu** - July 21, 2017, 10:46 am

This is the only one I use. Didn't even come here for the "hacking" part.

**Trappy** - July 21, 2017, 10:47 am

None, I only even visit hf reddit and youtube mostly.

The name club penguin is dubious at the least. CP? Really?  
I do go to Cybrary.it however, and I do have several certifications.

Roblox and HabboHotel for me. I meet hackers there and we talk about confidential stuff like SQLi, Phishers and RATs.

You know nothing, hello98321. Who would suspect a pack of elite hackers is discussing future projects in a lego game? Renowned hackers like Jimmy the LOIC God, Mark the SQLi Sage, John the Skid, h3x4k1ll th3 G4M3R M4ST3Rxx, CoDBoy, we're all there on Habbo Hotel & Roblox.
