Thread: [Need Sanigo Paid Theme for Free from Themeforest](#)

crack-it-yea - July 22, 2017, 4:33 am

Can any one share if having the @Sanigo theme ?

Been looking for a free link...

http
://preview[dot]themeforest.net/item/sanigo-modern-technology-wordpress-theme/full_screen_preview/19703554?_ga=2.158686138.1430649761.1500720704-261547460.1500720704

Thank You

Stop asking for free content here, if you want this theme for free search on google you can find it nulled / pirated version / non-genuine

No one will buy it, and give it for free to you.

Why you don't buy this theme and share with others? Maybe is a great idea! You pay with your own money, and we receive it for free!! What you think?

Why is everyone chasing pirated themes? Remember that they mostly are young developers, trying to earn some cash. Support such people instead of being a moron!

I dont care people pirate software that already made 100M USD, but support the small timers man

I agree with you, sort of.

Some of the themes that go on ThemeForest are usually \$59 or so. Most themes I saw have sold 1900 copies or so.

$1900 \times \$59 = \$112k$

And that's just coming from ThemeForest sales, that's not some small cash deals on the side.

Yes that's the numbers you see.. but you shouldn't forget the fees themeforest is going to take.. and in certain countries such as mine tax income is 40%. So let's say 40% is tax.. $59 - 23.6 = 35.4$ dollar

.. and the themeforest fee of like 10% .. - 5.9 = 29.5

$$1900 \times 29.5 = \$56,500$$

Exactly half the amount you calculated.

But okay okay.. if paying \$59 for a theme is too much in his case he could find a perfect alternative.

Singu1arity - *September 20, 2017, 10:07 am*

For the amount you pay, you get updates and support from the developers too. Most TF devs are very supportive as it is envato policy. Also "nulled" themes have the risk of malicious code inserted.
