Thread: [\[URGENT \] DDoS Protection](#)

PrintScreenPT - July 22, 2017, 7:48 am

Hello people,

I need your help, my internet is going down, a guy threatened me with ddos and so far the network comes back and it's very slow, I'm here to ask for help using my 4g. ????????

If you could give me a way to protect myself or back attack I would be very grateful! ???

JoiieHax - July 22, 2017, 8:45 am

Just Disconnect from The Network and Reconnect it should change your public IP address which will stop the attack

Call your ISP if you believe someone is attacking you. Nobody here can do shit for you.
