I'm going to try it out, thanks in advance.

I'm not a huge fan of PTC, but I'll try this site out

JillianV - August 1, 2018, 8:12 am

\$3 in less than 8 minutes! Easy, quick surveys about videogames :)

freaky11 - August 1, 2018, 5:59 pm

This service is nonsense. They are paying 25 cents for playing a game for 4 hours... I wanted to give it 2nd try but it still sucks.

No offense but you're doing it wrong.

ClixSense and GPTs in general provide many ways to earn money. It's up to you to learn which ones are worth the effort and which ones aren't.

I guarantee you I'd never play a game for 4 hours to earn \$0.25.

Take a look at what I earned in less than 20 minutes, completing easy and fun surveys:

^ This is the correct approach to ClixSense and GPTs. Not the \$0.25 for 4 hours nonsense.

vitalsp0t - August 16, 2018, 3:18 am

Lucky you guys, but if you're from a sh*t country you won't even qualify for any surveys at all.

Yep, ClixSense is still great! Just need to learn how to use it correctly :)

IMO members usually tend to stress too much about their daily earnings and averages. I prefer putting effort into ClixSense when it's worth it my time. Like, I haven't earned much lately because I haven't had much free time but I don't mind because the last two days alone made it up lol

For the next 13 days (starting Friday December 21st and ending on Wednesday January 2nd, 2019) ClixSense is increasing the daily checklist bonus! During this promotion all members can earn up to 22% daily bonus!

Not that hard to replicate what I do, you know? Whenever I open long and boring surveys, I skip them. Easy.

Just complete surveys that are short, easy, pay well and are about topics you like. It's not hard.

no. only way this is worth your time is to get referrals doing this for you, not worth the time to do

surveys, better off signing up others to do it for you.

I did sign up in 2011 but I started being active years later. I'm not active every day either, only whenever I feel like it.

Screenshot below taken on December 5th.

So following your logic I should have ignored the chance to earn \$85 +\$10 bonus for a couple hours of work.

Yeah, right.

Yesterday I earned \$96 + \$14 daily bonus shrug

David Chivas - February 13, 2019, 5:52 am

Yes.

But before registering, you must make sure all the information are fake. Why? It has a tips to do. You must make sure it is right to get much surveys.

I have been stuck while not having any suck surveys.

After having known, it would be very easy. There are so many surveys and task for you guy. Just by a brain, you can make more than 10\$ per day(for newbies) for just doing surveys and offers

About task (Figure Eight), you have to do a job level 0 (between 0.01\$/1 task to 0.06\$/1task) and need to have more than 70% of accuracy and doing much task, you will be able to get access to the job that includes the level of task.

It could be 2-3 months or more than depend on your skills. Good luck!

I have made 16\$ per day for just doing task as level 2.
