levant - July 22, 2017, 3:41 pm

i posted on here a couple nights ago asking if they could help me find an address.

we found that person but now another person has gone missing and the police won't do anything. we believe the person is fine but we need to know where he is. he has an iphone and we have his number i'm just asking to see if it's possible to ping someone's phone to get his location.
