Wow time really flies huh? Back in November 2015, I came across HF. Wanna know how i found it in the first place? Searching for Cheats for CS:GO. Yes! I was a cheater back then but now clean. play games legit haha. I think the cheat itself was from Nexus or something. Anyways that how i got here in the first place.

BUT, What kept me on here since many cheaters just get and leave? Well, I entered several giveaways and i won L33T Upgrade which was awesome. i cannot credit since i did not know who gave it to me but some guy told me it was from a live stream. Also i won several BTC Giveaways as well in time as i was on HF. Also the addiction just built up on me and could not stop using it haha.

And from a few months or a year later. i won a Ub3r Upgrade when i got approved. i was shocked that i won mostly all upgrades which is amazing as well for me, very awarding.

Also i felt i needed to give something back to the forum so i bought an donator award to support Omniscient and the whole community to keep going. I will be doing a few giveaways myself very soon :)

It all started from here. Then i enjoyed using the lounge, just to chat up and have fun, it was the best way to kill time :)

I did spend abit of time on the CPA Section on helping others to earn since i wanted to help some suckers out ;)

BUT I had some downtime in my life few years back. and Hackforums kept my spirits up high. Wanna hear it? Well. Few years back, i was moved to a place where i did not like living. and i was missing my old house and such. it took me alot of tries to get friends, job and other things but they were just not going where i wanted them to be. Life is hard, yes but things in life just kicked me right in the balls. when i came to HF, It kept me motivated to do things. build confidence. i know its strange but it generally did.

Now why "Hack" Forums, Well cause it has hack in it doesn't mean its for hacking only. i feel a great community here and they are always kind and helpful. I v never came across an issue on here. its been great just talking to other people. I wanna say thank you for the community for all the kindness and including you Omniscient. Just been fantastic mate.

Just thank you, I really meant it. Peace
