Thread: [Where can I watch pretty old anime?](#)

pig_slay - July 23, 2017, 8:51 am

Old animes are the best for me. Do you guys know where to watch some old anime? I would want to watch the Ginga Legend Weed and the much older Ginga: Nagareboshi Gin. Thanks! ?

*I never watched Anime. Well who knows if I might enjoy these shows? they seem to be interesting

The anime are alot older than that. Well the original is at least. But yeah you could use online streaming sites. Or websites like bakabt to acquire hard to find series. Like OVA or older series.

Thanks a lot! I'll definitely try that website

I found Ginga: Nagareboshi Gin on GoGoAnime and Ginga Legend Weed (titled Ginga Densetsu Weed) on KissAnime. Adblock and a pop-up blocker are definitely going to be your friends when you're using streaming sites, good luck!

True I used to leech there and just make new accounts when ratio got banned. Now I have no accounts with access. And they have all the good rare stuff :(

Oh shit is that why I also received a warning for "Leaking, Copyright Infringement, and Leeching" When I recommended him a anime site?

YouTube. there's actually quite a few movies in full on there of old movies like trigun. but that's not super old though.

I tried Youtube and some users resize the video when the upload and add some frame which is annoying for me
