Thread: [ProxyScraper v2](#)

vorticalbox - July 23, 2017, 11:40 am

Features:Scrapes proxies from <https://www.us-proxy.org/> <https://incloak.com/proxy-list/> <http://free-proxy-list.net/anonymous-proxy.html> and <http://free-proxy-list.net/>

Custom target to check proxies work against it.

Custom Thread count, put as many as your connection can handle.

Module for easier imports into your projects

RequirementsPython 3

Beautifulsoup 4

Requests

tdqm

Download

[Git hub](#)

[Zip](#)

Changes:added tqdm for progress without slow printing

reduced repetitive code as suggested

custom URL for testing

Changed asci art to match the forums (why not ^_^)

koolkid - July 23, 2017, 12:15 pm

I Like your focus dude and also i think you could have just updated your old thread to reflect this current improvement.

vorticalbox - July 23, 2017, 12:22 pm

Wouldn't let me, as I'm not upgrade and there is a time limit :(

TheMarkMan - July 23, 2017, 12:53 pm

This is looking clean, man. Could use this for a bunch of projects

Feel free too, if you have any improvements send me a pull request on github.

I'm thinking i should add response time and keep only fast proxies.

lockhead - July 24, 2017, 1:01 am

Thanks for sharing your work, keep it up.

But please don't post links to shitty url shorteners!

vorticalbox - July 24, 2017, 1:14 am

updated links ^_^

icmp - July 24, 2017, 5:42 am

Don't push your pycache to your repo lmao, also placeholders can just be empty curly braces like {} instead of {:int} etc. As long as in the format method you list them in correct substitution order.

vorticalbox - July 24, 2017, 11:02 am
