After affects for animation. I have a few years on it.

Photoshop for threads and static stuff.

And illustrator if I'm making semi animated stuff like an animated thread design.

Thanks for asking!

I'm open for orders rn and I can work tmrw. 15+ hours of downtime to spend.

LANCE - August 4, 2017, 9:55 am

Could you do a thread design for my forums <https://www.forumsupport.org>

I got a example mock up design of the kind of header area of the thread design I want but it's nothing special:

You can leave credits saying you made it ect. (at the bottom of the thread design and dead in the center)

Thanks in advance if you do this for me.
