Thread: [My apology](#)

2663477_temp - July 25, 2017, 5:00 pm

I was UID=2663477

I made a thread about a word filter I noticed, I did not expect it to get such a reaction as a closure. This thread serves as my apology to Omniscient. I wish to rejoin the community and I am very sorry for the mishap and I am apologetic for my actions.

I sincerely hope to regain access, and wish to have the closure removed from my account.

I suggest using the Contact form to reach Omni, rather than opening a thread. There is even an option for 'Banning' - <https://hackforums.net/contact.php>

You cannot appeal closure, you were closed for a reason.

I will contact him as well, but I figured I'd make a public apology to let others know about my previous account, in the event they would like to know.
