(Aug 12, 2017 01:33 PM)FYeah Wrote: [\[CITE\]](#) Thought I would post back here to give my honest review on this pack.

I'll start off by saying I have never ewhored in my LIFE! So I was reading this as a complete beginner. I have to say this ebook is phenomenal, I had no idea the potential there was to earn so much, and I cant believe how many horny desperate guys there are!?

The guide is very easy to read, I understood it all and implemented it right away. I have only been ewhoring a total of 2 days and have already made \$70! And that is today alone, I spent most of yesterday reading through the pack and setting everything up. I also have another \$30 coming through later this evening when my guy gets back online too!

I've included some payment proofs below, feel free to PM me if you want me to do a live video of me showing my earnings if you don't believe me.

Shutdown and Courage, thank you + thanks for all the help youve given me on discord, appreciate it bud! Happy earning everyone! ?

Originality 9.5/10: This eBook has double dipping methods and sites I haven't seen before and they work very well, some of the methods to use I didn't even know about.

Method 10/10: This ebook is great for beginners looking to start eWhoring because Shutdown explains everything good and will mentor you throughout the way.

Design 9/10: The layout is simple, not hard to read at all and there is no grammar issues.

Conclusion: This eBook can make you a lot from eWhoring from the sites he gives you, to the double dipping methods he shows.

Good luck with sales.

I have not bought a ebook in a few months now because of how shitty they are with there saturates

methods and such but this is the first post I've seen in awhile that intrigues me and has better proof of earnings that are up to date then anyone else. About to buy it

Edit: so I bought the ebook and I have read the part that I bought it for which was for the Snapchat. I've actually been doing the same method as the ebook states since around April when I bought one of my first ebooks. This is a great ebook for people just starting out. But for someone like me who's been doing snap for months using the same methods I'd say it's not for me. This is my honest review.

Thought I would post back here to give my honest review on this pack.

I'll start off by saying I have never ewhored in my LIFE! So I was reading this as a complete beginner. I have to say this ebook is phenomenal, I had no idea the potential there was to earn so

much, and I cant believe how many horny desperate guys there are!?

The guide is very easy to read, I understood it all and implemented it right away. I have only been ewhoring a total of 2 days and have already made \$70! And that is today alone, I spent most of yesterday reading through the pack and setting everything up. I also have another \$30 coming through later this evening when my guy gets back online too!

I've included some payment proofs below, feel free to PM me if you want me to do a live video of me showing my earnings if you don't believe me.

Shutdown and Courage, thank you + thanks for all the help youve given me on discord, appreciate it bud! Happy earning everyone! ?

The amethyst version is different because you receive packs worth way more then the cost itself, you also get 1on1 mentoring from either Shutdown or me and there's a discord channel for support. The more time you put into it the more you will earn. I will be posting with more payment proofs very shortly.

We give 1-2 for Rookies

and As many needed for Amethyst, it's lifetime so whenever me and Courage construct new packs we sometimes hand them off to existing amethyst customers.

Yes that isn't my ebook, me and courage has nothing but positive reputation. Just look at the

I won't lie after i bought two e-books from HF, that was total bullshit and earned me absolutely zero, Shutdown offered me to try e-whoring, at first i didn't saw much potential in this niche, but after i bought this method, i had a hope to earn something. And i did at day 2 i earned my first 35 bucks, the method is solid, absolutely newbie-friendly, if you invest 5-10 bucks more after you buy this method you can be sure to earn your first dollars at day two or three, big vouch for Shutdown! ?

I've purchased 'Amethyst' package and completely satisfied with and decided to give a review about the product (please note: I do not receive any benefits from this review) , so:

Ebook- 10/10 : well written, explained and with all details and examples you need (I rarely give

10/10 but Shutdown deserve that) - thus, its 10/10!

Layout- 10/10 : I enjoyed the structure of the eBook as it's not a thousand page eBook but compact and # of pages fit the material;

Price - 10/10 : in the beginning I was a bit skeptic but reading the eBook and realizing that I have everything I need without spending extra cent and I have the ability start earning whether I'm a beginner or experienced.

I want to thank you Shutdown for being HQ member and creating what he created as well as, vouch vouch and vouch unlimited number of times for him and his products!!!

I have a few questions here before I can purchase.

1) I'll be purchasing through BTC - Is that okay?

2) I'm not from the US nor the UK, nor India - Just from somewhere in the dessert. So does this method work Internationally in all currencies?

3) I prefer takeouts as BTC as well. Is that possible?

If all of the above are YES, I'd like to purchase immediately. Please let me know.

Thanks,

Barely anything unheard of. Methods are not updated and seller doesn't know what he's selling. (2 items he says will follow with the eBook but does not. He goes in-depth on basically nothing.

Literally the worst thing I've bought.

You bought the rookie method, it doesn't cover much like the amethyst method. And it's named Rookie for a reason. It covers the basics.

+BIG FAT VOUCH for this dude

i bought the mentor package and all i can say: goldmine.

You will earn a lot of money, you will make a huge BANK if you do it right.

I really suggest you buying the Mentor package because this legend will help you literally in everything

in my first day of trying that, i earned 60\$ i think within 1-2 hours, and thats a fucking lot, because you need to set up some stuff there first,

all i want to say that you really should buy this ebook, you will make pure gold if you will put time on it.

Major vouch for Shutdown, this method definitely works, his mentoring is easy and he'll definitely help you if you ever need help on anything! When I bought it, sure enough I was able to make a good amount of money, unfortunately I had to quit. If I didn't quit, I would of made bank that's probably more than the professors at my university. Please do not hesitate when buying this, you WILL earn.

Amethyst is for members who are wanting to get guided through step by step while having me there all the way, You know? That's the whole point of the mentorship. Until you feel like you are comfortable on making money on your own. And of course the guides are different, Rookie doesn't include everything in it that amethyst has and offers limited support w/ one package while amethyst I send them 3 packs and various other stuff.

It doesn't matter where your from, works worldwide chief.

You can sell gift cards and get paid via Bank transfer, sell it for BTC then exchange BTC for \$, or sell it for PayPal and exchange PP for \$. Those are most common methods, but ofcourse there are many more.
