Thread: [\[FIRST ON HF\] \[HIGHLY PROFITABLE\] GENESIS CLOUD MINING METHOD. MAKING \\$100/DAY](#)

JayIDK - July 26, 2017, 1:19 am

CURRENT STOCK TO REINVEST: \$14030

So let me break this down into three. parts

- i: What is genesis-mining?
- ii: How do I gain money from your method?
- iii: How much should I invest?

i:Spoiler [\(Click to View\)](#)

Genesis mining is a cloud mining site that has been hosted since 2014 and are highly reputable. You gain money by using affiliates, while genesis is profitable standalone this method will boost your profits by up to 10%! If you invest \$1000 thats like getting \$1100 worth of mining! And from those profits you can just keep going up the ladder.

ii:Spoiler [\(Click to View\)](#)

How you will be gaining money from my method is that I will be matching ANY upgrade used on my code and use your code. I will post back with proof after each upgrade in a 30 second youtube vid. When each of us use a code it saves both of us 3% plus gives the other person a high hashpower bonus. Here is the affiliate tab: <https://gyazo.com/e41df8f20e5894ef0d82ef19602e8684>

iii:

Spoiler [\(Click to View\)](#) Personally I am \$10000 in on genesis split across dash, ether and sha256 (Bitcoin). You may invest a starting \$30 ammount or more.

MY CODE TO USE AT CHECKOUT: pO5BY8

If you use the code simply reply below with ammount, proof and order id in pm.

Cloud mining is considered a Ponzi here I'm pretty sure, so this thread is not allowed.

(Jul 26, 2017 01:20 AM)Disinterested Wrote: [\[CITE\]](#) Cloud mining is considered a Ponzi here I'm pretty sure, so this thread is not allowed.Can you show me where it says this? If so I will remove it ASAP. But Genesis is pretty old in the scene and highly doubt its a ponzi with there new ether mining farm addition.
