<https://hackforums.net/showthread.php?tid=5661991>

So it all started when Lookin made that thread that is linked above, i wanted to buy the method too but the thread was closed so i PM'd him. I got this PM from him in response that I have contact him on Discord - the rest of the conversation was on Discord.

Conversation on discord huge images

I show in these screenshots everything related to this in our chat.

I want a refund because he is selling a public & saturated method that is available all over google. That is beside the fact that it does not work.

Yeah, I saw it.. It's sad that he claim to have earned 500k but won't refund 50\$

Every ebook on this site is a joke. Some are legit but then you got those just for easy money.

Aqua_fina - July 26, 2017, 4:40 am

Legit report, I hope you get your money back OP. You have been very patient

brianfs - July 26, 2017, 4:46 am

As I saw another member reported him for same issue, I hope you will get your money back, but as I saw he don't reply to dispute...

He did reply to that other dispute on him, but it was only something like "the deal was made off-site".

I don't think i will get my money back but meh, let's try.

I wonder how many users bought from Lookin, it seems the number is around 10-15 people, that is \$500-\$750 of selling a public method out of google. Jesus.

Egregious Jr. - July 26, 2017, 6:15 am

Didn't he make \$500K from ripple? Looks like he was bullshitting.

Saltpeter - July 26, 2017, 7:20 am

Hopefully Lookin comes back and resolves these disputes against him. I wouldn't hold your breath though.

Best of luck.

Grizzlies - July 26, 2017, 7:37 am

If you can't give back a simple \$50 something is def fishy.

No way a real life problem can stop 1 min of you making a transaction.

Thank you! I thought in the beginning he was a good guy when all that drama with Tommy

happened, I am not so sure about that now.

He's already back and appears to have zero remorse or intentions of paying anyone their money back.

Ultra Instinct - July 26, 2017, 11:38 am

Isn't this the same guy who claimed he made 500k from ripple?

I think that too.

Maybe after all the hate around him he got tired of it and decided to scam us.. ?

Hard to believe he and Minimalist were a team in Consensus

I don't know what are you expecting buying methods that can give you \$1000s for \$50. If something sounds too good to be true, it probably is. Most of the methods people sell her are outdated, saturated and public. You probably won't get your money back, but let this be a lesson to never buy an e-book again.

Didn't notice a date. No need to be salty about that.
