Thread: [godaddy hosting mysql connect help](#)

gussi - July 26, 2017, 11:51 am

Lets say for instance that i've got credentials to connect to mysql database how if the website is hosted with godaddy how do i connect to mysql ?

Vana - July 26, 2017, 10:20 pm

Per this page: <https://www.godaddy.com/help/view-your-database-details-16021>

The DB host should be the site's IP.

sysadmn - August 3, 2017, 2:18 am

check on detail host that wheres is to connect
